Intapp Billstream

Automate, digitize, and accelerate your prebilling process

Manual and disconnected prebilling processes need a solution that empowers firms to keep up with today's fast-paced digital environment. Intapp Billstream is a state of the art, cloud-based proforma invoice solution designed to help professional services firms integrate, automate, and accelerate their prebilling processes. By intelligently addressing gaps in firms' existing billing software and workflows, Intapp Billstream resolves challenges across the engagement lifecycle to ensure clients receive the bills they expect.

Matter financial management the modern way

60%
law firms that plan to increase their technology investment in the next three years

40%+
reduction to bill editing across lawyers and billing teams
