

AGENTIC ACCOUNTS PAYABLE

Built for Microsoft Dynamics 365 Business Central

Agentic AP is an AI-driven solution designed to deliver end-to-end, 100% hands-free invoice processing inside Dynamics 365 Business Central. Built on Power Automate and advanced AI models, it helps organizations process vendor invoices instantly with 100% accuracy.

TAKE YOUR BUSINESS TO THE NEXT LEVEL

Unlike assisted solutions that still require manual intervention, Intech's Agentic AP delivers a production-ready, fully automated AP workflow from invoice receipt to posting.

AGENTIC • FULLY AUTOMATED • PRODUCTION-READY

Business Benefits

- ✓ Eliminates manual data entry and zero processing errors
- ✓ Accelerates AP processing timelines
- ✓ Improves 100% financial accuracy and compliance
- ✓ Enhances visibility and control for finance teams
- ✓ Scales efficiently for high invoice volumes

Core Features

- ✓ **Automated Invoice Intake:** Monitors AP email inbox and supports manual uploads. Original invoices are automatically attached in Business Central.
- ✓ **AI-Based Data Extraction:** Extracts invoice number, PO number, line items, quantities, pricing, tax, and dates from PDFs.
- ✓ **Smart PO & Receipt Matching:** Matches invoice data with Purchase Orders and validates against receipt quantity, price, tax, and discounts.
- ✓ **Approval Workflow Integration:** Automatically triggers approvals based on thresholds and exceptions.
- ✓ **Audit Trail & Logging:** End-to-end document visibility with detailed processing logs.

How It Works

About Us

We turn inspiration into execution, partnering with businesses to bring bold ideas to life through enterprise transformation powered by Microsoft technologies and AI. As a three-cloud partner, we deliver ERP, CRM, automation, cloud, data, and AI solutions tailored to industry needs. With offices in India, the United States, Canada, and Singapore, we serve a global customer base, supporting businesses of all sizes from ambitious startups to Fortune 500 leaders and unicorns in the making.
