

DIGITAL CANVAS

AI Powered Project Management & Governance App

Digital Canvas is an AI-powered project management and governance app built on Microsoft Power Platform and Copilot Studio. It helps organizations centralize projects, automate documentation, and gain real-time visibility into risks and finances. Designed for leadership, project, and finance teams, it replaces scattered spreadsheets and manual reporting with a single, secure platform for faster, smarter decisions.

TAKE YOUR BUSINESS TO THE NEXT LEVEL

Empower your teams with AI-driven project governance and real-time insights. Digital Canvas transforms complexity into clarity, accelerating decisions and driving measurable growth

CENTRALIZE • GOVERN • ACCELERATE PROJECTS WITH AI

Business Benefits

- ✓ **Leadership** – Instant visibility into risks, financials, and next steps.
- ✓ **Project Managers** – Real-time tracking of status, risks, and documents.
- ✓ **Finance & Procurement** – Transparency into purchase orders, billing cycles, and milestone payments.
- ✓ **Vendors & Service Providers** – Standardized BRDs and billing clarity.
- ✓ **Team Members** – Role-based access and automated notifications for task clarity.
- ✓ **IT & Governance** – Scalable architecture with audit trails and compliance visibility.

About Us

We turn inspiration into execution, partnering with businesses to bring bold ideas to life through enterprise transformation powered by Microsoft technologies and AI. As a three-cloud partner, we deliver ERP, CRM, automation, cloud, data, and AI solutions tailored to industry needs. With offices in India, the United States, Canada, and Singapore, we serve a global customer base, supporting businesses of all sizes from ambitious startups to Fortune 500 leaders and unicorns in the making.

Agents Driving Impact
