

INTELLIGENT DOCUMENT MANAGEMENT SYSTEM (IDMS)

Transform Documents into Intelligent, Actionable Insights

Intech's Intelligent Document Management System (IDMS) revolutionizes document management for organizations by integrating AI, automation, and agent-based orchestration. Leveraging multiple specialized AI agents, IDMS ingests, understands, classifies, validates, and processes enterprise documents, ensuring governance and human oversight. Developed on Microsoft Power Platform and Copilot Studio, IDMS provides secure, scalable, and reliable document intelligence across the organization.

TAKE YOUR BUSINESS TO THE NEXT LEVEL

Unlock the full potential of your enterprise documents with AI-driven intelligence. IDMS empowers your teams to move faster, reduce manual effort, and make smarter decisions with confidence.

CAPTURE • UNDERSTAND • ACT

Business Benefits

-  **Intelligent Document Understanding** - Turns documents into structured data and metadata for business use.
-  **End-to-End Automation** - Automates capture, classification, validation, and processing.
-  **Accuracy with Control** - Ensures reliable data with AI validation and human review.
-  **Instant Insights & Access** - Delivers fast search, Q&A, and document summaries.
-  **Seamless Process Integration** - Triggers workflows and integrates with enterprise systems.

*Turn documents into decisions with
AI-Powered intelligence*

Core Features

- ✓ **AI-Powered Document Processing**
 - OCR for PDFs and images
 - Intelligent data and metadata extraction
- ✓ **Multi-Agent Architecture**
 - Ingestion Agent – Capturing & pre-processing
 - Classification Agent – Categorization & tagging
 - Validation Agent – Data verification
 - Compliance Agent – Governance & audit
 - Workflow Agent – Process automation
- ✓ **Human-in-the-Loop**
 - Escalates low-confidence cases for review
 - Ensures accuracy and control
- ✓ **AI Search & Insights**
 - Natural language search
 - Conversational Q&A with source references
 - AI-generated summaries
- ✓ **Workflow Automation**
 - Trigger actions and business processes
 - Integrate seamlessly with enterprise systems

About Us

We turn inspiration into execution, partnering with businesses to bring bold ideas to life through enterprise transformation powered by Microsoft technologies and AI. As a three-cloud partner, we deliver ERP, CRM, automation, cloud, data, and AI solutions tailored to industry needs. With offices in India, the United States, Canada, and Singapore, we serve a global customer base, supporting businesses of all sizes from ambitious startups to Fortune 500 leaders and unicorns in the making.
