

WEIGH SCALE INTEGRATION FOR DYNAMICS 365 F&O

A stand-alone application to fetch weight directly from the weighing scale.

TAKE YOUR BUSINESS TO THE NEXT LEVEL

The advantage of using this application is, there is no need for defining manual weight in the system. It can also be used in any transactions such as purchase order GRN, sales order Picking list, and Production Order RAF, etc.

Enhanced Reporting:

The app offers deep insights and customizable reports for informed decision-making, while enabling real-time access to enhance efficiency and regulatory compliance.

Seamless Integration:

Smooth integrates with Dynamics 365 Finance & Operations, ensuring that data from weighbridge operations is accurately incorporated into your operational management system..

Eliminate Weighing Frauds:

The app can ensure that each item is weighed accurately and only once, eliminating the costly and potentially fraud practice of double weighing. The app's real-time data sync and automated processes enhance accuracy of weighing operations, reducing risk of potential fraud..
