

Key Phases of the Assessment Timeline

1

PRE-ASSESSMENT PREPARATION:

In this phase, we gather data, engage key stakeholders, define the assessment scope, and allocate necessary resources to lay the groundwork for a successful assessment.

2

ASSESSMENT EXECUTION

This phase involves analyzing data, consulting with experts, benchmarking against industry standards, and documenting findings to gain insights into your current state.

3

FINDINGS AND RECOMMENDATIONS

After assessment execution, compile a comprehensive report with clear, actionable recommendations, prioritize them based on impact, and gather feedback from stakeholders for further insights.

4

POST-ASSESSMENT ACTIONS:

This phase focuses on action planning, resource allocation, continuous monitoring, and effective communication to implement recommendations and ensure sustained improvements.
