

# PRODUCT CONFIGURATOR APP

Leveraging AI, Product Configurator enhances production efficiency, reduces errors, and accelerates order-to-ship times, transforming manufacturing processes.

## TAKE YOUR BUSINESS TO THE NEXT LEVEL

Enhances efficiency with guided options, quick configuration entry, unique item generation, detailed rules, and seamless sales integration.

### Guided Configuration Process:

The Product Configurator provides a user-friendly interface that guides operators through pre-defined options and quantity selections, reducing errors and ensuring consistency in product customization. By simplifying complex configurations, it enhances communication and control over production.

### Quick Configuration Entry:

Experienced operators benefit from a shorthand configuration entry code, enabling them to select or enter configurations rapidly. This feature significantly cuts down setup time, contributing to faster lead times and improved efficiency.

### Integrated Configuration Management:

The tool consolidates all configuration tasks within a single integrated system, ensuring each unique item, bill of material, and cost is accurately created and managed. This integration supports complex manufacturing needs, allowing for comprehensive control over product variations.

## About Us

Intech Systems, one of the top partners for business applications, specializes in solutions that empower businesses to streamline their operations and achieve remarkable efficiency. With our expertise and dedication, we have brought together a comprehensive suite of capabilities into the Product Configurator solution.

## Why Choose Us

- ✓ Benefit from our industry experience and proven track record in delivering reliable solutions.
- ✓ Experience smooth integration with your existing systems for a seamless transition.
- ✓ Receive exceptional customer service and ongoing support from our team, ensuring your success.
