

Avaya Aura on Azure

Design Workshop

Integration Partners is a Microsoft Gold Cloud Platform partner, as well an award-winning Avaya Diamond Partner.

If you are exploring the possibility of deploying Avaya Aura in Microsoft Azure, we are ready to bring our multi-vendor expertise to bear in order to meet your needs for design and configuration services. Reach out to us today for a complimentary conversation with our certified architects, who will assist in scoping the right solution for you.

Take advantage of native Azure capabilities to enhance the stability, security, and performance of your Avaya Aura R8 architecture:

- VM High availability
- Azure backup
- Supported Session Border Controllers in Azure for SIP voice routing
- Native Active Directory identity and authentication services
- Disaster Recovery scenarios with Azure Site Recovery and Azure VM replication between regions
- Global region availability for scale, security, and performance
- And more!

We know and understand you have options when choosing the right partner. Technology expertise alone isn't a differentiator, it's how we do business with you. We've curated the best solutions not just to support IT needs, but to support your business strategy.
