Fortinet – Virtual Appliances on Microsoft Azure

Integration Partners is a Microsoft Gold Cloud Platform partner, as well as a Fortinet Platinum Partner.

If you are looking to deploy Fortinet network virtual appliances on Azure, we are ready to bring our multi-vendor expertise to bear in order to meet your needs for design and configuration services. Reach out to us today for a complimentary conversation with our certified architects, who will assist in scoping the right solution for you.

Sample Use Cases:

- Enhance or develop your Azure-integrated SD-WAN solution with FortiGate virtual appliances
- Secure your Azure hybrid infrastructure while maintaining your existing security standards with FortiGate Next Generation Firewalls and FortiWeb WAF Web Application Firewalls
- Provide advanced application delivery and load balancing with FortiADC in Azure

We know and understand you have options when choosing the right partner. Networking technology alone isn't a differentiator, it's how we do business with you. We've curated the best solutions not just to support IT needs, but to support your business strategy.
