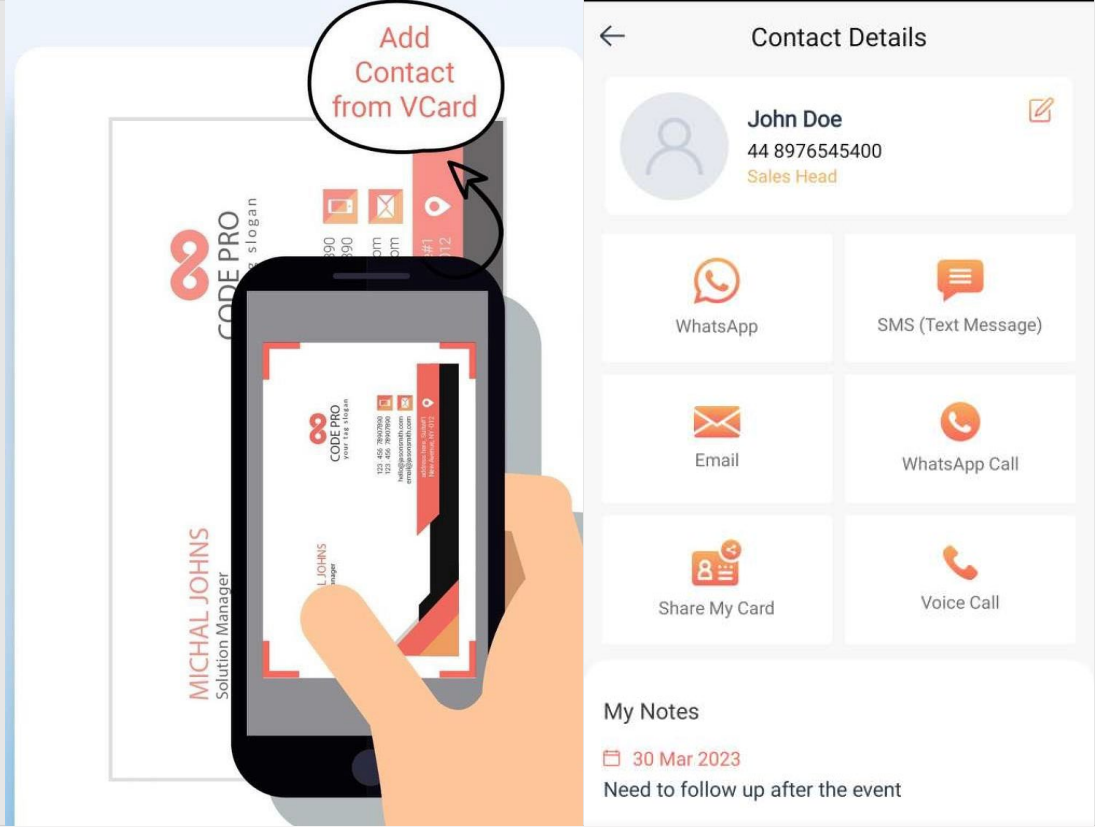
Exchanging, Storing & Accessing Contacts Made Easy.

Be it salespeople or entrepreneurs, exchaning contacts at an expo with prospective clients is essential to growth of any business. While the use of business cards within daily life may be declining, but in the industry that requires networking, exchanging visiting cards is a standard practice at conferences and meetings. However, keeping track fo all the contacts is difficult.



CHALLENGES

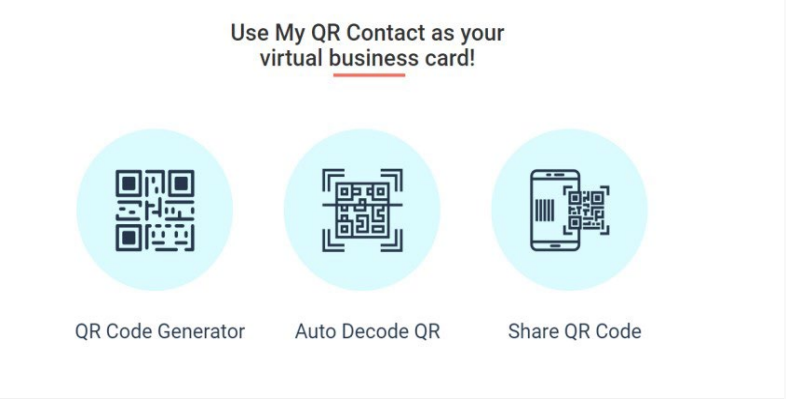
Visiting events, meeting people and exchanging contact has been the go to strategy for growing the network and thus business. Often the business card being misplaced or lost. Thus our team at Intelegain had an idea to develop the ReachMe Plus app.

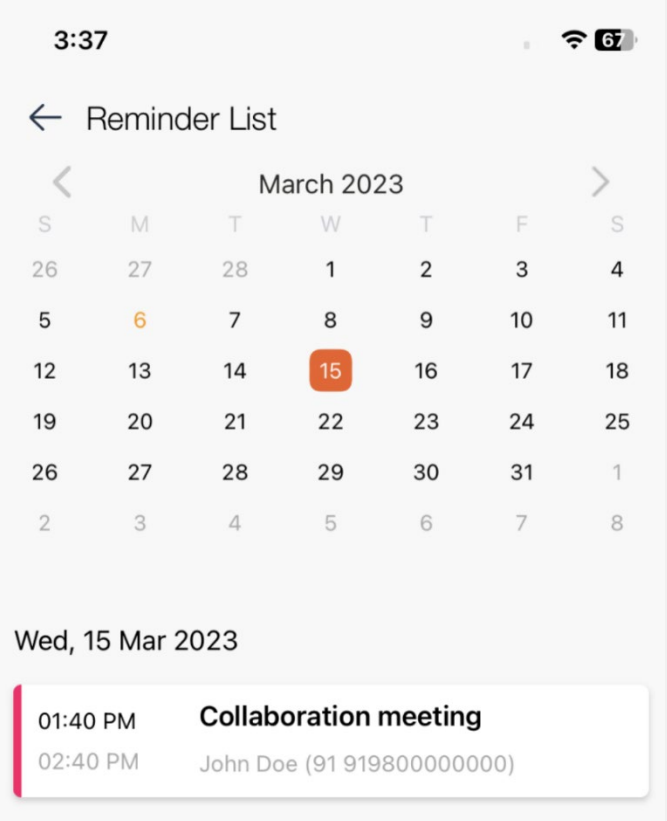
IDEAL SOLUTION

An app which can scan, read and store contact information directly to the phone would address the challenge of lost business cards. This solution is designed to cater the need to store as well as share own contact with a single click in expos.

DESIRED OUTCOMES

Exchanging contacts with just a QR code, scanning and storing business card information directly to phone, accessing this information at a click, making it easier for salespeople and entrepreneurs to connect seamlessly with desired prospects and connects.





Intelegain Technologies

ReachMe Plus

ReachMe Plus app helps you to manage, schedule reminders and organize your contacts efficiently, specially for the one's you meet at an event. It uses the power of your phone's camera to quickly scan business cards at events and store it as a contact to your phone.

Scan & Store Business Card Information

ReachMe Plus scans and identifies information on business cards using OCR and creates a contact on your phone. It also acts as your personal business card and helps you to share the information directly with your peers using a QR code

Message Contacts directly through SMS/WhatsApp

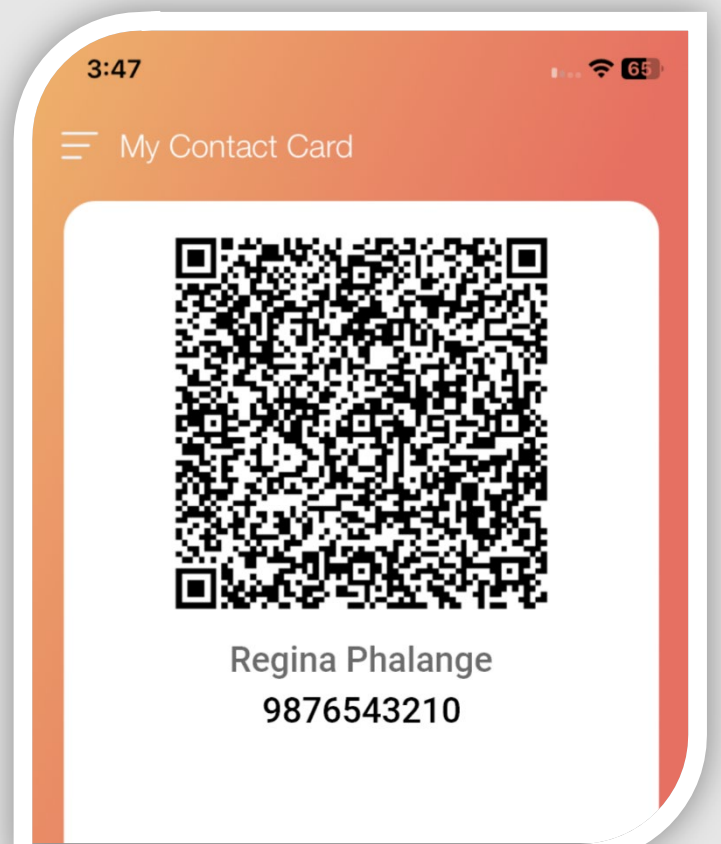
ReachMe Plus has seamless integration with your phone's SMS and Whatsapp. You can message the contacts you create directly through the App.

Manage Reminder Schedules

ReachMe Plus also allows you to schedule reminders and makes primary and followup notes for the contact scanned at any expo or conference.

Intelegain’s ReachME Plus + Microsoft Azure + Power Automate and Dynamics 365

ReachMe Plus app uses the power of Microsoft Azure and Power Automate to deliver seamless app user experience. Microsoft Azure ensures maximum uptime and Poweer automate ensures that your infrastructure costs are less. A collaborated solution of ReachMe Plus with Microsoft ensures that all data is secured and available to you anywhere, anytime.



ReachMe Plus + Microsoft Azure

ReachMe Plus app allows you to quickly scan business card and create contacts on your phone. Combined with Azure it ensures that the app keeps performing to its optimum and deliver the best app experience.

ReachMe Plus + Power Automate

ReachMe Plus leveraged Power Automate extensively to offer business process and workflow automation using serverless technology stack keeping infrastructure costs as bare minimum.

Customer success: Gurmeet Singh, ESC

“ReachMe Plus allowed us to quickly create badges at our event for all our exhibitors and visitors. This just removed the need to carry visiting cards at the event and then didn’t had to worry about losing them…”

Gurmeet Singh, ESC
