

A sensibly simple A+ school system

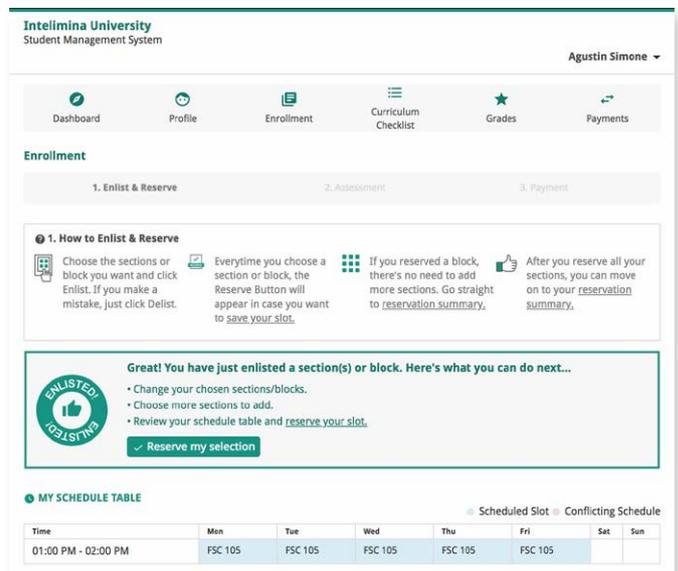

Kick-start your student enlistment with Grado and register a student experience that's excellent.

Find favors, not flaws.

We can't please everybody but we hope to please and win praises from those who matter – administrators managing students, department, and course configurations, students handling and viewing their course eligibility, enrollment, and evaluation; departments tracking real time student engagement for waitlist or unfulfilled classes, rooms, and scheduling resolution; and assessors getting immediate calculation on fees including scholarship status, installments, balances, and other dues and discounts.

Overall, we want every stakeholder's valuable time and resources managed seamlessly into a responsive working system highly rated for quality, flexibility and efficiency.

Enrollment

1. Enlist & Reserve 2. Assessment 3. Payment

1. How to Enlist & Reserve

Choose the sections or block you want and click Enlist. If you make a mistake, just click Delist.

Everytime you choose a section or block, the Reserve Button will appear in case you want to save your slot.

If you reserved a block, there's no need to add more sections. Go straight to reservation summary.

After you reserve all your sections, you can move on to your reservation summary.

Great! You have just enlisted a section(s) or block. Here's what you can do next...

- Change your chosen sections/blocks.
- Choose more sections to add.
- Review your schedule table and reserve your slot.

Reserve my selection

MY SCHEDULE TABLE

Time	Mon	Tue	Wed	Thu	Fri	Sat	Sun
01:00 PM - 02:00 PM	FSC 105						

Build bridges, not cages.

Departments, subjects, instructors, classes, sections, and students are among those with the most webbed relationship in the school ecosystem. Linking them systematically allows wider freedom to access information as needed, when needed.

Long queues no more, just long list of benefits.

Only get involved in planning and then experience school transactions falling rightly and automatically in place. Processing more transactions with less queues and lesser wait time starts after convenient configurations of school requirements and student eligibility.

Break records, not ranks.

Monitor student and subject activities real time for quick coordination and conflict resolution with the appropriate authority as immediately as they arise.

Access. Engage. Simplify.

New Payment
AY 2018 - 2019 - SEMESTER 2

Please review student's assessment summary before adding payments.

Total Payable	6,574.00
Total Paid	5,108.00
Balance	1,466.00

Select fees to add to payment form. You can add all fees automatically, or customise the form.

➔ Add all scheduled ➔➔ Add all payable
