

IT'S TIME

to turn Transaction Banking on its head

Banks need a simple alternative to access enterprise-level IT without the associated costs and risks of corporate and SME onboarding as well as the cumbersome and time consuming data migration.

Digital Transaction Banking on iGTB Cloud

Run your banking service from the cloud with iGTB's Digital Transaction Banking (DTB) platform where our expert managed services provide full mission-critical service delivery, leaving you to focus on your customers

Business Service Pack 1 (BSP1): 10-week go-live plan

- Account position reporting
- Entire gamut of payment types
- Customer Self-onboarding

Fast-track your transaction banking foray

We looked worldwide, for platforms that could serve corporates. If those platforms that actually existed, that could accelerate our time to market, in terms of bringing in capabilities for self-servicing corporates.

With Intellect, we found that platform. It is actually is a very rich platform, functionally. More importantly, from the user interface and user experience, its a completely that supports end-to-end journeys, not just transaction banking, but beyond.

-Mr. Miguel Rio Tinto, Group Chief Information Officer, Emirates NBD Group
