ABOUT US

IntelFinder, formerly Inteller, was founded in 2015 by a "Legends of Fraud" award winning industry veteran and elite military intelligence experts. We bring more than 15 years of experience building industry-leading intelligence operations, delivering insights to the world's largest companies and government agencies.

"IntelFinder is one of several services utilized by our cyber threat intelligence team. They help us improve our intelligence coverage, as they report on certain important threats that the others simply do not cover. The platform is super simple to use, making it easy for us to quickly go over the alerts and understand what is happening"
