Summary of Tasks

- Record and see what has happened for each alarm

The screenshot displays the Facit interface with several key components:

- Alert Summary:** A row of six boxes showing counts for New Alerts (2), Active Alerts (37), Returned Alerts (20), Owned Alerts (57), Actioned Alerts (57), and Completed Alerts (57).
- Alert List:** A table with columns for Owner and Time stamp, listing various alerts.
- Incident Detail Panel:** A pop-up window for 'Oil Co/Osprey/Tag 1' showing 'General Info' (Alert owner: Josh Plumblby), 'Latest Incident' (Complete by Josh Plumblby, 11/02/2020 10:30:30), and 'Historical Incidents' (Incident 09/02/2020 07:30:00 - 11/02/2020 10:36:35).
- Summary Row:** A row of six boxes showing counts for New Alerts (245), Active Alerts (41), Returned Alerts (206), Owned Alerts (2), Actioned Alerts (2), and Completed Alerts (1).
- Alert Table:** A detailed table with columns: Owner, Time stamp, Return, Duration, Tag, Description, Message, and Trend. It lists several alerts with their respective owners and descriptions.

Facit is integrated directly with Intelligent Plant's Alarm Analysis and also links the data to PI-AF
