

Microsoft Power Platform Development Services

Summary

Simplify complex processes with custom applications. Whether it is mobile apps, business-critical data management, or enterprise systems integration, we will design, develop, and support Microsoft Power Platform solutions that leverage the cloud and run on any device.

Features

- No-code application development and out-of-the-box configuration
- Business process analysis, workflow automation, business forms
- Process design, architecture, development, and deployment
- Re-platform existing business applications (e.g., Access databases)
- Rework and transformation of existing failing or clunky processes
- Low-code development using Power Apps or Power Automate
- Power BI dashboard generation
- Custom development to supplement complex processes
- Support services
- Microsoft 365 integration

Benefits

- Drive productivity, efficiency, and automation
- Identify and eliminate inefficient processes
- Gain insights into bottlenecks in your organisation
- Aligned with best practices to deliver robust, reliable, maintainable solutions
- Free up your staff's time
- Reduce risk and errors resulting from following many manual steps
- Audit your processes and utilise information management
- Modernise existing business applications to be cloud and mobile ready
- Ensure all necessary processes and procedures are consistently followed
- Realise quick benefits through rapid prototyping and iteration

Why Intelogy?

We work with organisations who recognise the potential for technology to transform their businesses, and help them visualise, define and realise solutions that change how they work for the better. Offering comprehensive delivery services, from strategic consultancy, software design and construction, to ongoing client services, Intelogy is at the forefront of low-code application development using the Microsoft Power Platform.

Founded in 1994, Intelogy has grown to become the trusted digital partner for multiple clients. As a Microsoft Partner since 2000, we pride ourselves on consistently delivering exceptional solutions that improve workplace productivity. Our user-first approach places emphasis on identifying and addressing staff and customer needs – resulting in intuitive applications that drive team efficiency.
