

# Dynamics 365 Business Central for Remanufacturing Organizations

## ReMAN365

Plan · Execute · Manage · Profit

**Time Required:** 2 hours

**Cost:** Free

**Description:** This assessment is to determine if Dynamics 365 Business Central is the right fit for your remanufacturing organization.

In this free 2-hour assessment, you will work with our Dynamics Remanufacturing experts to discuss your operational, manufacturing and financial processes and determine whether Business Central can improve your business. No matter what you remanufacture, refurbish, overhaul, recondition, service or repair, we can help you optimize your operations. This assessment can be done onsite or remotely.

### Agenda

- Financial reporting process and requirements
- Dashboards/Productivity Enhancements
- Automated Data Collection
- Service Contract Management
- Deconstructive BOM Process
- Visual Scheduling
- Audit Trails

### Deliverables:

A written recommendation describing how Microsoft Dynamics 365 Business Central can help you improve your operations along with a general estimate of the recurring software subscription and implementation costs
