Assessment

Microsoft Dynamics 365
Business Central

Time Required: 2 hours   **Cost:** Free

Description: The Dynamics 365 Business Central Assessment will help you determine if Dynamics 365 Business Central is a good fit for your organization. The process is simple and involves a one to two hour onsite meeting with you and your staff to better understand your business objectives and functional requirements. Once that has been completed, a written recommendation will be made outlining the Dynamics 365 components needed as well as any Extensions. An estimated subscription cost along with the costs for configuration/setup, training and data conversion will also be included.

Topics to be discussed can include, but are not limited to:

- Company structure
- Users
- Timeframes
- Financial reporting process and requirements
- Procure to pay process (purchasing, receiving, invoice receipt, payment)
- Quote to cash process (quotes, orders, fulfillment, invoicing, cash receipts)
- Manufacturing process (bill of material and production)
- Jobs (time and expense entry, project billing, project scheduling)
