

INTERLINK CLOUD PROACTIVE:

Enhanced Security Monitoring & Response

ACTIVE THREATS REQUIRE ACTIVE RESPONSE

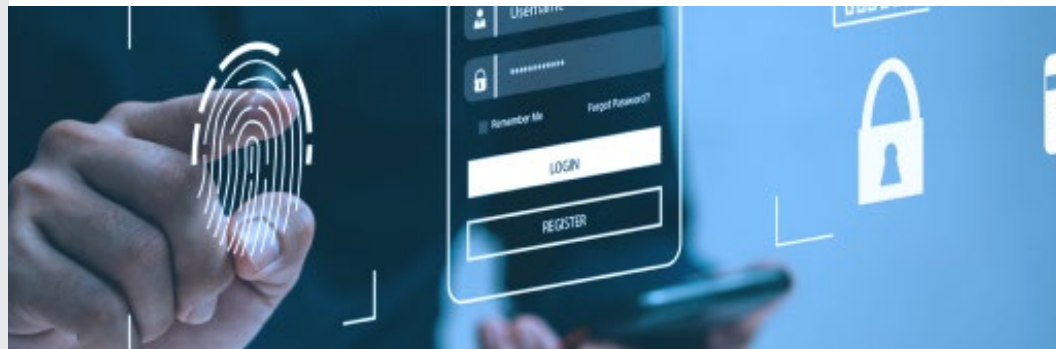

OVERVIEW

Interlink will monitor your security posture with 24x7 automated incident response and a 12x5 Security Operations Center for alert visibility, investigation and optimization. We'll watch for any threats so we can isolate and deal with them to limit potential damage. We'll also conduct monthly phishing-tests and cybersecurity awareness training to help your team keep threats out to begin with, as well as quarterly risk assessments and penetration testing to gain visibility into your organization's threat landscape.

OUR EXPERTISE, FOR YOUR SECURITY

Modern security threats are more dangerous than ever, with recent cyber-attacks such as Uber and Colonial Pipeline demonstrating just how dangerous they can be. Increasingly targeted and sophisticated attacks can damage your organization and even cripple your business. In this environment, simply putting the tools in place isn't enough – they must be updated and monitored to deal with threats and eliminate them before they can take hold. If you don't have the money, expertise, and time to build out a security team, then partnering with Interlink Cloud Advisors for Enhanced Security Monitoring & Response managed services is for you!

The value you will receive from this managed security service:

Reduce Risk

- ✓ Protect endpoints and email with best-in-class Microsoft solutions
- ✓ Active monitoring of alerts
- ✓ SLA guaranteed 24x7x365 incident response
- ✓ Train users with monthly cybersecurity awareness training

Meet Cybersecurity Insurance Requirements

- ✓ Insurance carriers are always increasing requirements and are starting to provide significantly differentiated pricing based on the controls in place

Cost effective

- ✓ Don't have to hire, train, and manage hard-to-find and expensive security resources
- ✓ Built on Microsoft tools - the most value for your security dollar in the market
- ✓ Our hybrid approach with automated incident response using Microsoft Sentinel lets us bring you our powerful cybersecurity service at an affordable cost

How can Interlink help?

Interlink is a top rated Microsoft partner and one of the first to obtain their highest level of Solutions Partner Designation for Security. We also have been certified by Microsoft in their security specialization areas such as Threat Protection, Identity and Access Management, and Information Protection. Our experts can handle your endpoint management through the entire life cycle, creating and deploying solutions and permissions based on your business needs and environment.
