Microsoft 365 Health Check

TorchLight has partnered with Surveil to offer a solution to customers who have invested in Microsoft 365 services. Surveil's AI-driven Microsoft 365 Health Check runs quietly in the background. Onboarding takes minutes, and the outcome is a detailed report that provides recommendations to better optimize, secure, and control your Microsoft 365 environment. From cost savings to under-utilized resources, the Microsoft 365 Health Check is a secure and effective means of optimizing your Microsoft 365 environment.

17-30%

The M365 Health Check can save an average of 17-30% across Microsoft 365.

Health Check Report

Receive insight into Microsoft 365 with the **Health Check report**, revealing findings, recommendations, potential savings, productivity improvements, unused licences, as well as security risks.

Fast, Secure, Reliable

It only takes minutes to onboard and with read-only access, Surveil never writes to your environment.
