

AUTOMATES YOUR EMERGENCY OPERATIONS PLAN

Plan2Ops is an innovative tool to support your business in preparing and responding to various emergencies. This solution guides business leaders on how they should act to unpredictable hazards, including earthquakes, fires, hurricanes, mandatory evacuations, and more.

In an emergency, any authorized staff member can activate the emergency response from their mobile device. All other staff members will receive push notifications with their assigned tasks of the emergency protocol.

FEATURES

- 
PUSH NOTIFICATIONS
 Send push notifications regarding any important messages linked to the tasks that happened before, during, and after an activity.
- 
CHAT
 Text, pictures, and sharing pdf documents are part of what plan2ops has to offer for two-way communication.
- 
DASHBOARD/ REPORTS
 Provides full accountability, track tasks progress in real-time, and generates reports.
- 
STRATEGIC TASKS
 Each assigned task include detailed instructions, GPS location, and expected time of completion.
- 
LOCATION
 The task can include the GPS location of the place where should be executed.
- 
WORKS OFFLINE
 Plan2Ops Mobile App can work offline. When connection is re-established, will synchronize with supervisor's dashboard.

BENEFITS

AUTOMATED INCIDENT MANAGEMENT

Create customized tasks, assign specific duties to the designated personal, generate automated push notifications and assist on any emergency or pre-planned action.

ELIMINATE HUMAN ERROR

Take control by providing clear, accurate procedures, instructions, and other tools to prevent human errors.

ENSURE CONTINUITY OF OPERATIONS

Implement your operations plan during unexpected interruptions by tracking your employees' assigned tasks and processes. Plan2Ops also enables you to minimize downtime, recovery efforts, and unforeseen expenses.

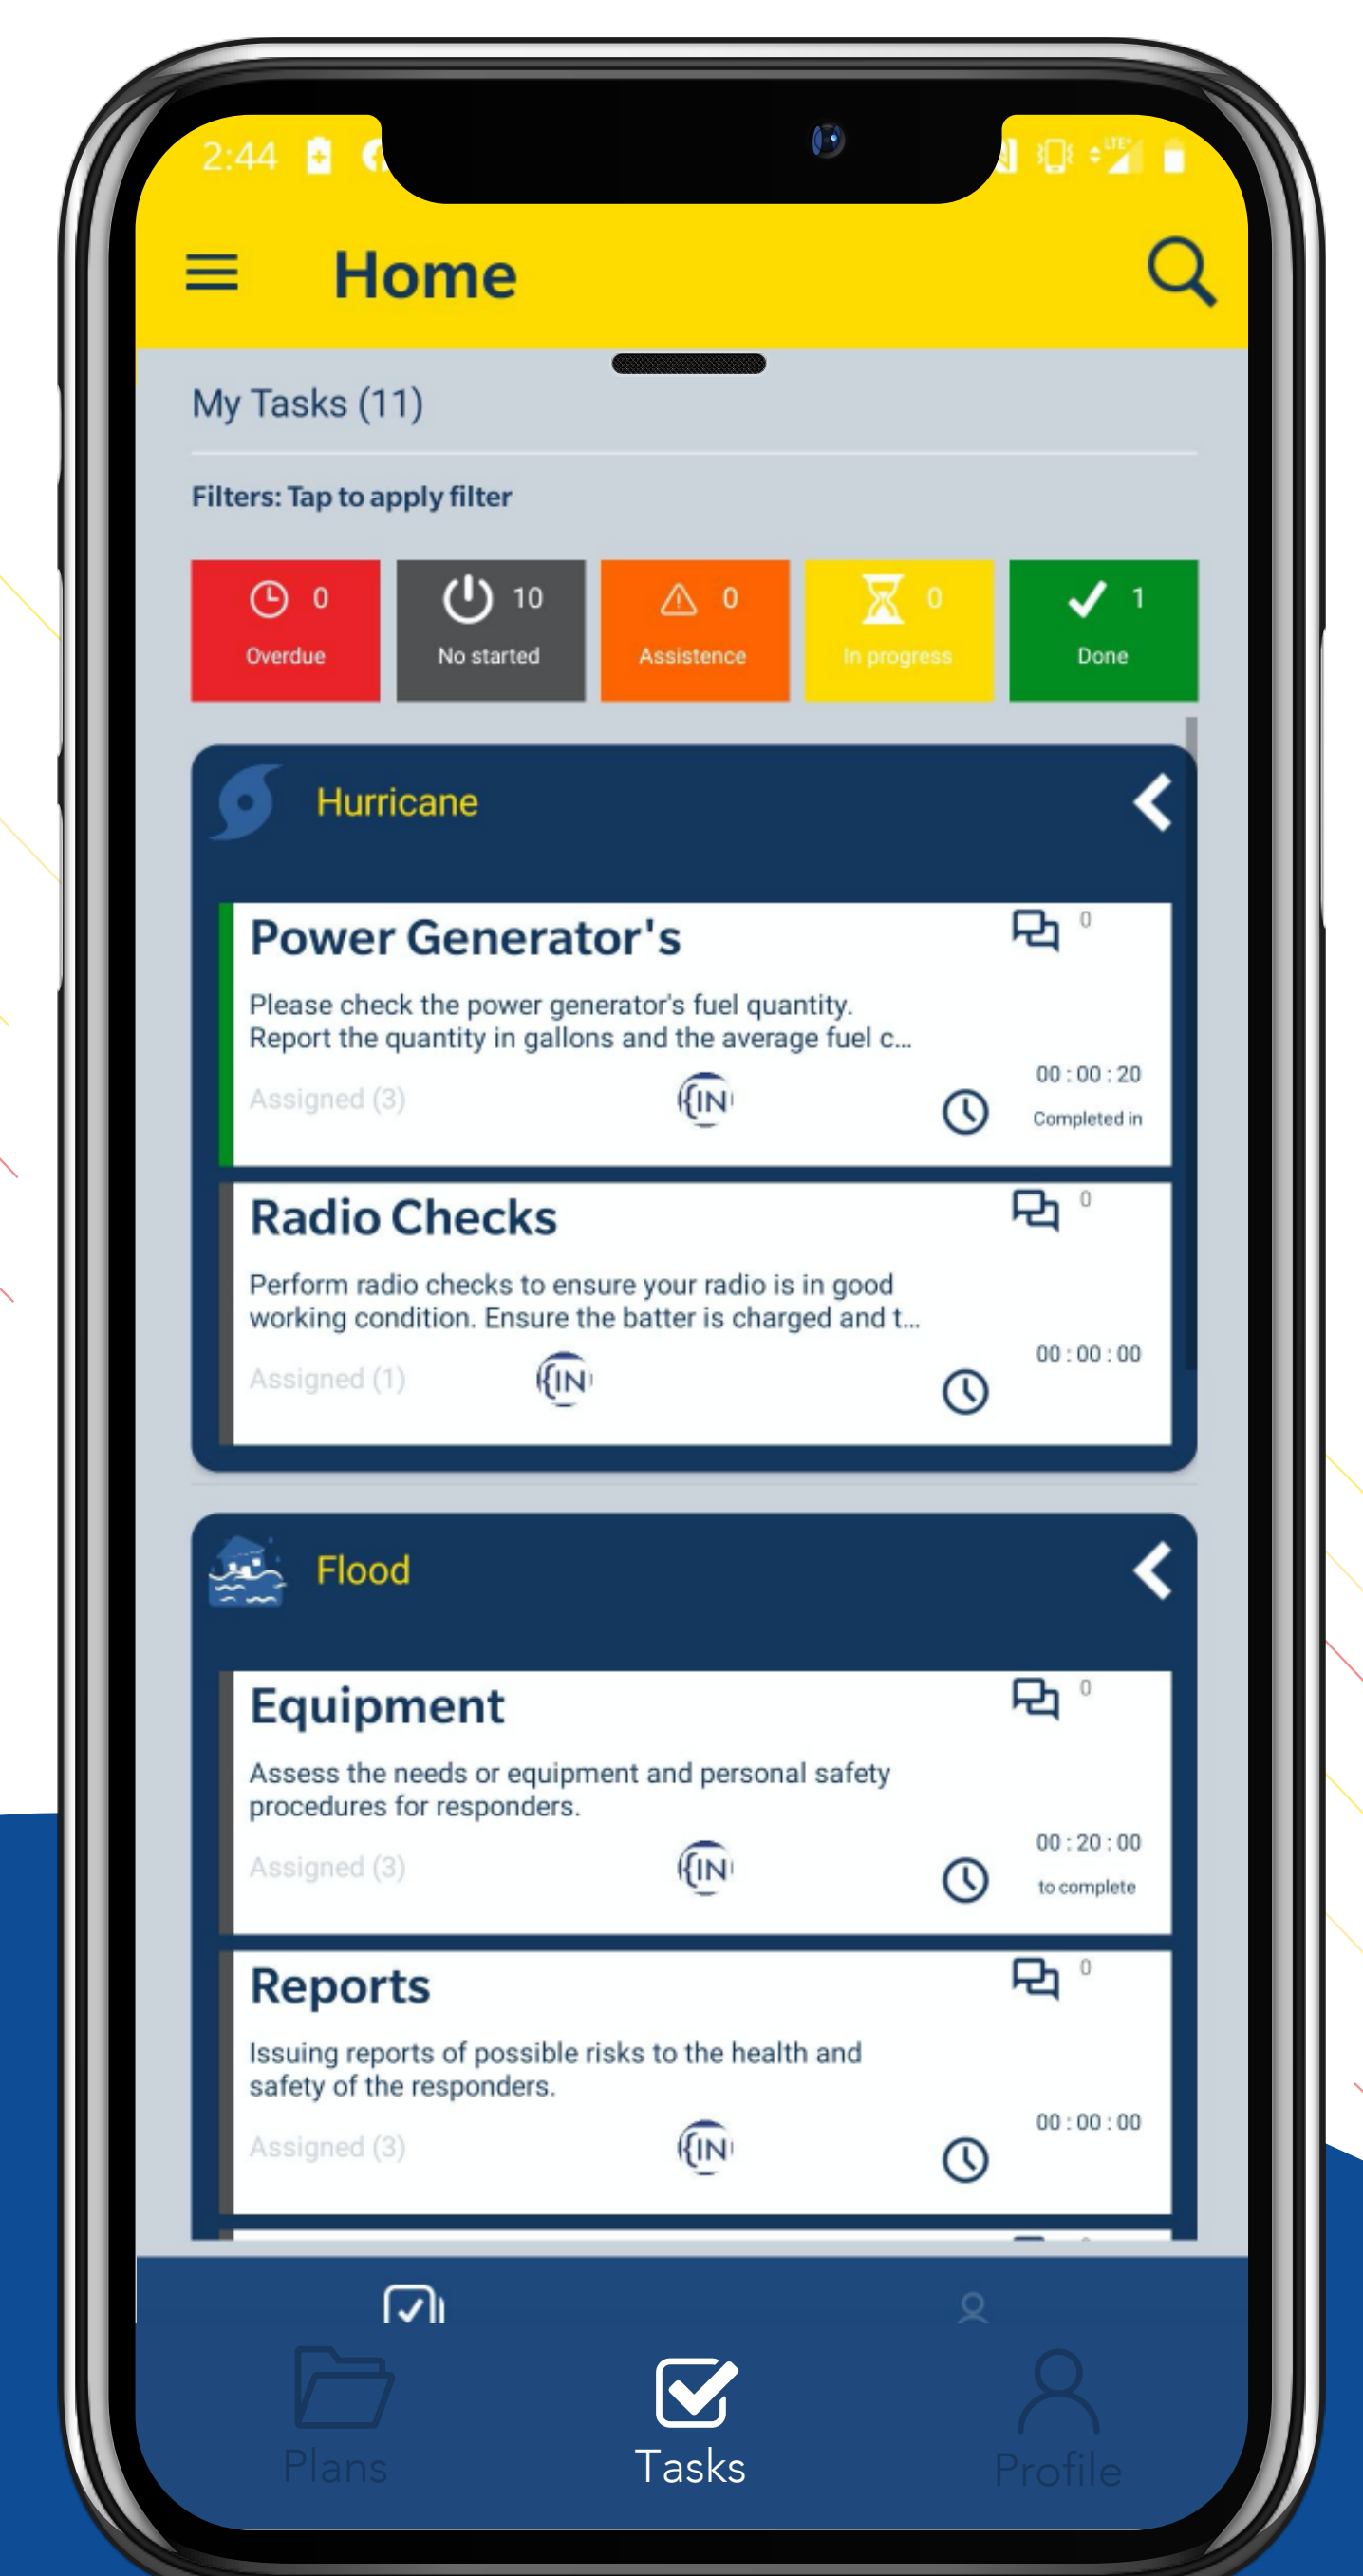

MASS NOTIFICATIONS

Send text messages and push notifications to ensure everyone is informed. This includes all the roles of employees, emergency personnel, suppliers, and customers registered under your account.

*Additional costs may apply and data wireless service required
