

REVENUEGRID

Take the right steps forward at each stage of the deal

Help your team do their best

See at a glance what actions reps take in each deal and what outcomes they bring

- Set a unified sales approach across the whole organization
- Automate playbooks and best sales practices
- Coach based on specific data and most effective steps

360-degree pipeline visibility

Gain complete real-time visibility into every deal in your pipeline

- Check pipeline health and key metrics in a matter of seconds
- Get alerts on changes in deal sizes, close dates, and scores
- Access complete data from your sales technology stack

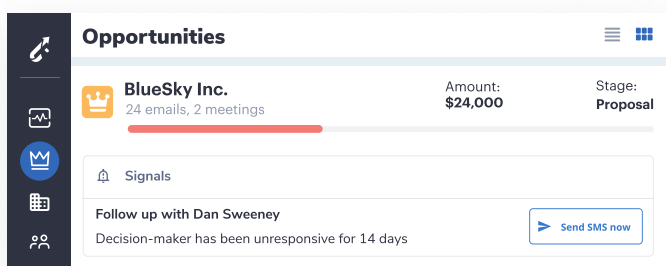

Absolute data security

Have total control over your customer data and who has access to it

- Revenue Grid does not store customer PII data
- Security reviews at every stage of product development
- On-prem or private cloud deployment

Privacy Shield Framework

AI Guided Selling

Transform your sales data into action with contextual signals that guide reps to more wins

- Gain more controllability over the sales process
- Auto-alert your team to deals at risk or silent deals
- Get contextual actionable insights from your sales data
