# Identify Data Security Risks

## Microsoft Data Security Engagement

**INVISO**
www.invisocorp.com

Don't wait for a costly data breach to realize the importance of data security.

In this engagement you'll get the insights you need to understand data security, privacy, and compliance risks in your organization.

## 80%

Of leaders cited leakage of sensitive data as their main concern around adopting Generative AI.

---

Data is the lifeblood of any business, and its security is paramount. Detecting, investigating, and acting on data security risks in your organization is critical to ensuring trust, creating a safe workplace and protecting company assets and employee and customer privacy.

## Intelligently investigate and take action on data security risks

In the generative AI era, having an integrated approach that can help quickly identify, triage, and act on security risks for your critical data is more important than ever. In this engagement, we'll provide you with all the tools you need to address risks, including a Security Check report, recommendations and actionable next steps for mitigation, and a clear look into Microsoft's trusted approach to data security.

### You'll learn how to:

- Understand the risks of Dark Organizational Data.
- Assess your environment against key data protection standards.
- Receive an analysis and report on findings and associated risks.
- Utilize Microsoft Purview and other tools.
- Take the recommended next steps for adoption.

### Our experts will help you:

**Document your objectives** and strategy around data security, privacy and compliance.

**Detect, investigate, and take action** on data security and privacy risks.

**Accelerate** your compliance journey with the latest Microsoft technologies.

**Take actionable next steps** based on your specific needs and objectives.

## Why Inviso?

Our highly experienced team of professionals have helped a wide range of organizations, from small to large, take charge of their data security. We'll help you understand the specific risks your organization may be facing and develop a personalized, actionable plan to help mitigate them. We're here to help make your data security future a safer one.
