

Multi-Cloud Permissions Management Assessment

Value proposition

Microsoft Entra Permissions Management is a cloud infrastructure entitlement management (CIEM) solution that provides comprehensive visibility into permissions assigned to all identities – users and workloads – actions, and resources across cloud infrastructures and identity providers. It detects, right-sizes, and monitors unused and excessive permissions and enables Zero Trust security through least privilege access in Microsoft Azure, AWS, and GCP.

Workloads

- Azure Active Directory
- Entra Permissions Management*
- Azure, AWS, and/or GCP

Engagement Outcomes

- Assessment risk report deliverable
- High-level roadmap to remediate permission risk across all major cloud platforms
- 17 hours of customer-facing time required over 3 weeks

Assessment offers

- *Microsoft funding for Invoke-led Assessment may be available upon request*
- **Invoke-led trial licensing for qualified customers*

Timeline & Scope – Customer customizable (minimal customer effort)

Week 1

Engagement Setup

- Pre-Engagement Call
- Questionnaire
- Pre-requisites and scope

Week 2

Kick-Off, Onboarding & Discovery

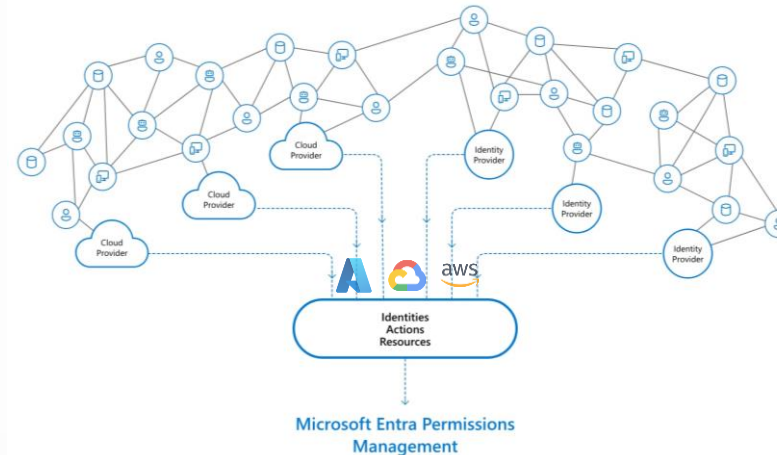

- Kick-off meeting with all stake holders
- Configuration and onboarding
- Entra Permission Management Overview and Demo

Week 3

Findings Presentation & Closeout

- Data collection & Documentation
- Write up and recommendations
- Assessment report presentation
- Recommended Next Steps
- Engagement Closeout

Microsoft Partner Specializations

- Threat Protection
- Calling for Microsoft Teams
- Identity and Access Management
- Adoption and Change Management
- Information Protection & Governance
- Modernization of Web App to Microsoft Azure
- Meetings and Meeting Rooms for Microsoft Teams
