Microsoft 365 Health and Audit Check

A specialized health check-up and audit service

Microsoft 365 Cybersecurity

A necessary assessment

Designed to ensure the rigorous and thorough security assessment of your IT environment

Want to improve your security posture in an ever-changing digital world?

We can help

Our Microsoft 365 health and cybersecurity check consists of a meticulous analysis of your security configuration and posture, aligned with the standards set by Microsoft, the Government of Canada, the Center for Internet Security (CIS), as well as our extensive experience in the field.

Why choose io4 technologies?

A dedicated expert from our team will perform an in-depth review of more than 140 validation points within your infrastructure, encompassing:

- Global Configuration
- Identity Management
- Exchange Online
- SharePoint Online and OneDrive for Business
- Teams
- Device Management
- Security and Core Compliance
- Optimal Power Platform security

1. Existing Environment Analysis

Review of the current configuration to identify strengths and weaknesses.

2. Risk assessment

Use of best practices to assess risks accurately and contextually.

3. Proposal of solutions

Provision of personalized recommendations to mitigate identified risks.

4. Writing a detailed report

Delivery of a 25–30-page technical report providing a clear view of potential improvements.

5. Presentation of results

Transparent communication of findings with the final report sent for reference and future actions.

The io4 Commitment

By choosing our service, you'll get a **complete view** of what needs to be improved to strengthen the security of your Microsoft 365 environment. This will not only allow you to comply with security **best practices**, but also to purchase **cyber risk insurance** with increased confidence.

Our commitment to excellence and safety is unwavering. We are convinced that our Microsoft 365 cybersecurity health check and audit service will be an **asset for the protection** of your data and for the overall security of your digital environment.

We look forward to working with you to strengthen your security strategy and help you achieve **digital peace of mind.**
