## Security Focused

Cornerstone.IT is **NIST 800 171 compliant**. We have built NIST compliance into the way we work.

## Expert Engineers

Our **Microsoft** engineers hold an impressive portfolio of **certifications**, including, *Microsoft Certified: Azure Security Engineer Associate, Microsoft 365 Certified: Modern Desktop Administrator Associate and Microsoft Certified: Azure Solutions Architect Expert.*

**CORNERSTONE.IT**

# Looking to keep your documents, deals, and engagements organized and secure?

Let Cornerstone.IT assess your current workflow and demonstrate how iManage Knowledge Work Platform, the leading document and email management solution (DMS) on Azure is the right solution for your business.

## Are these familiar scenarios?

- Lost hours of work because documents have gone missing?
- Lost edits because someone overwrote the document?
- Had difficulty searching for a document?
- Had trouble collaborating or co-authoring documents outside the firm?

### IDEAL SOLUTION

iManage Knowledge Work Platform on **Microsoft Azure**

iManage journals all your document versions.

Searches for files by their metadata & content.

Provides frictionless document editing and co-authoring within & outside your organization.

### DESIRED OUTCOME

**Productive & Secure**

A secure easy-to-use document management system that is setup, configured, and customized to work the way your firm works.

# Cornerstone.IT

Modernize your antiquated document workflow.

With a Cornerstone **implementation** of iManage on Azure, your firm will be able to easily:

Easy-to-use,  
means  
increased  
productivity

Organize and secure document workflow.

Search for and find documents.

Save multiple document versions.

Secure and wall-off sensitive documents.

Share and co-author documents.

Define retention policies.

Organize, discover, and summarize relevant information.

Create a uniform document management system that is not met with resistance.

Let Cornerstone **assess** your current workflow **at no cost to you** – so you can get a uniform and easy-to-use work product management system with the benefits of **Microsoft Azure**.

# How Cornerstone Helps

We have the **expertise** to set up, configure, and customize iManage Knowledge Work Platform on **Microsoft Azure**.

Secure and customized solutions that keep your firm working.

Unlike other solution providers, we **take the time** to:

- Understand your current workflow and how your end-users like to work.
- Examine how your 3<sup>rd</sup> party applications integrate with iManage.

---

We hold an impressive portfolio of **Microsoft & iManage certifications** – we are experts.

Cornerstone.IT is **compliant** and maintains strict adherence to the **NIST 800 171** standards.

# A Cornerstone **Migration Assessment** of iManage on Azure – Is Where Your Solution Starts to Work for You.

**Smooth  
Implementation**

As a longstanding iManage and Microsoft Gold partner, Cornerstone.IT understands how iManage Knowledge Work Platform integrates with Microsoft Azure, Microsoft 365, and other Microsoft products.

# Customer success:

**HAHN &  
HESSEN LLP**

Cornerstone.IT has been our firm's trusted IT partner for a decade on projects big and small and has ably run our critical iManage systems. They understand our environment and are committed to helping us get the most out of iManage and our other technology assets and stay on the cutting edge.

— Josh Divack, Partner, Hahn & Hessen LLP

# Customer success:

**BECK REDDEN LLP**

“Cornerstone was instrumental in our successful transition to iManage. The antiquated systems that were being used and the lack of firm-wide consistency in document management provided many challenges at the beginning of the project. It took the skills, knowledge, and dedication of Cornerstone and our internal team to work through each issue to find the right solution. The level of support and care Cornerstone provided us was bar none. Our firm is now using iManage with ease, and our system workflows have never been better.”

— Katie Tullis, Executive Director, Beck Redden LLP
