

Teamwork Assessment

Assessment and Roadmap

Learn everything about modern teamwork with Microsoft 365 directly from our experts.

In the assessment we identify on behalf of the existing solutions, operation concepts and usage patterns chances and potentials of digital collaboration with Microsoft 365 in your company for

- basic teamwork scenarios like remote work, collaboration, work organisation, meetings and telephony
- advanced teamwork scenarios like process automation, document management system (DMS), digital events etc.

Concept and roadmap for digital collaboration with Microsoft 365

Together we design teamwork and productivity support in your company.

- Within the framework of the concept we train your team and show rapid prototyping solutions out of the scope of Microsoft 365.
- For the use cases we define requirements for Microsoft Teams and connected services like SharePoint, OneDrive, Planner, ToDo, etc.
- In the roadmap we plan steps to improve collaboration in your company.
