

Bootcamp Knowledge & Learning

In a bootcamp we determine and evaluate the current solutions for:

- knowledge, learning and further education
- knowledge management
- e-learning, corporate learning
- employee onboarding
- help for the employees

What can you expect?

- inventory of current knowledge and learning environment
- definition or determination of goals, vision and needs
- presentation of concepts and solutions with the Microsoft 365 platform and showing best practices
- concepts for a successful integration of learning and working environment
- best practices and solutions from other companies
- roadmap, planning and offer for implementation

Flexibly designed content

- if necessary target group workshop and evaluation
- visualized presentation of solution approaches (wireframe, visual concept, prototype or comparable)
- Technology to try out

Target group

- knowledge manager, community manager, HR, experts-/specialist groups who want to share their know-how
