

# IPM Construction Management

## A tailored Microsoft Solution

### Microsoft 365

IPM Users operate in a familiar Microsoft environment using Office 365 Tools.

### Microsoft PowerApps

Additional customised Apps can be created in PowerApps and added to the solution.

### The Microsoft Dynamics Platform

IPM is embedded in Microsoft Dynamics platform and integrates natively (to provide Construction Management Functionality).

### Microsoft Certified Apps

Additional specialised "professional" Microsoft Dynamics licences can be added, as required and integrate "Out of the Box".
