

# STREAMLINED INTELLIGENCE REQUEST MANAGEMENT FOR LAW ENFORCEMENT

IRIS is purpose built to streamline the intelligence request, communication, and dissemination processes. Our comprehensive platform offers unparalleled extensibility and military grade encryption which makes it suitable for any law enforcement purpose. Communicate, collaborate, and disseminate critical intelligence data in a single platform.

- **Improved Efficiency:** Quickly and accurately respond to requests.
- **End-to-End Tracking:** Ensure all tasks are completed.
- **Cloud-Based:** Hosted in Microsoft Azure - no installations & no equipment.
- **Templated Report Generation:** Easily generate consistent, professional reports.
- **Full-Text Request Search:** Quickly find and reuse existing information.
- **CJIS Compliant:** Suitable for any law enforcement application.
- **Affordable:** Pricing plans for any budget.
