

The Data Security Engagement

Identify data security risks in your organizational data

PARTNER-LED ENGAGEMENT HIGHLIGHTS

Understand the risks of *Dark Organizational Data*

Learn about the risks organizational insiders may impose

Assess your environment against key data protection standards

Receive an analysis and report on findings and associated risks

Learn about tools and services that can help mitigate risks

Explore recommendations and next steps

80%+

of leaders cited leakage of sensitive data as their main concern around adopting Generative AI¹

¹ First Annual Generative AI Study: Business Rewards vs. Security Risks, Q3 2023, ISMG, N=400

In today's digital age, data is the lifeblood of any business, and its security is paramount. As the datasphere is projected to double by 2026, the sheer volume and complexity of data will only increase, making it a prime target for security incidents. With the rapid deployment of generative AI apps, data security risks are escalating, demanding robust protection and governance. Yet, an alarming 30% of decision makers lack visibility into the location or nature of their sensitive data, leaving their digital estate vulnerable. **It's time to take control and safeguard your business's future.** Don't wait for a costly data breach to realize the importance of data security. Secure your data now and stay ahead in the game of digital defense.

Intelligently investigate and take action on data security risks

Detecting, investigating, and acting on data security risks in your organization is critical to ensuring trust, creating a safe workplace and protecting company assets and employee and customer privacy.

The Data Security Engagement gives you the insights you need to understand data security, privacy, and compliance risks in your organization.

As your business-critical data expands and generative AI is being deployed rapidly, having an integrated approach that can help quickly identify, triage, and act on data security risks is more important than ever.

By participating in this engagement, our experts will work with you to:

Document your objectives and strategy around data security, privacy and compliance

Show how to detect, investigate and take action on data security and privacy risks

Demonstrate ways to accelerate your compliance journey with the latest Microsoft technologies

Provide actionable next steps based on your needs and objectives

THE DATA SECURITY CHECK UNCOVERS RISKS THAT MIGHT BE HARMFUL TO YOUR ORGANIZATION

The Data Security Check is an integral part of the Data Security Engagement. The Data Security Check leverages Microsoft Purview tools and services in an automated process to:

- Discover data that is stored in the Microsoft 365 Cloud and analyze it for the presence of artifacts that may impose data security risks to the organization.
- Analyze user behaviour for events that impose a risk to the customer's organization. These vulnerabilities range from the loss of intellectual property to workplace harassment and more.

The Data Security Check is structured around typical Microsoft 365 services and their associated data repositories that organizations use. At its core, the Data Security Check analyzes user behaviour and scans data repositories related to email, collaboration, and document storage.

Optional modules can be added to extend the Data Security Check to include on-premises data repositories, Windows 10/11 endpoints and more. All activities share a common framework that will allow you to understand the risks that exist in your organization and develop a roadmap to mitigate and protect your company's information.

WHAT TO EXPECT

By the end of this engagement, experts in Microsoft compliance will provide you with:

- ✓ A Security Check report that includes findings and insights from the automated discovery process
- ✓ A list of recommendations and actionable next steps that will help mitigate the identified risks
- ✓ A clear look into Microsoft's approach to data security and mitigating and controlling insider risks
- ✓ An optional Compliance Manager Tenant Assessment report with suggestions and top key improvement actions
- ✓ A set of long-term recommendations on your compliance strategy, with key initiatives and tactical next steps
