ISA CYBERSECURITY

Threat Protection Engagement

Learn how to put next-generation Microsoft Security tools to work for you

ENGAGEMENT HIGHLIGHTS

Review your security goals and objectives

Identify real threats and discover vulnerabilities in your environment

Map identified threats and vulnerabilities to specific solution recommendations

Develop joint plans and next steps

Do you know how many phishing attacks your organization has received? If employees are using the right password protocol? Whether personal data is being exposed? In short, is your organization's cloud environment as secure as you think it is?

IMPROVE YOUR SECURITY POSTURE WITH A THREAT PROTECTION ENGAGEMENT

Organizations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives—and identify current and real threats—by scheduling a Threat Protection Engagement.

We can help you develop a strategic plan customized for your organization, based on the recommendations of Microsoft experts in security. You'll gain visibility into immediate threats across email, identity, and data, plus gain clarity and receive support on how to remediate vulnerabilities and upgrade your security posture for the long term.

WHY YOU SHOULD ATTEND

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to learn how to secure your organization right now as well as how to mitigate and protect against threats moving forward. By attending this engagement, you can:

Identify current, ongoing security threats and discover vulnerabilities in your environment	Walk away with actionable next steps based on your specific needs and objectives	Document your security strategy for the benefit of keystakeholders	Better understand how to accelerate your security journey using the latest Microsoft Security tools

WHAT TO EXPECT

We'll partner with you to strengthen your organization's approach to cybersecurity and help you better understand how to prioritize and mitigate potential attacks. We'll provide:

- Analysis of cybersecurity threats that are found targeting your organization.

- Actionable recommendations to help immediately mitigate the identified threats and discovered vulnerabilities.

- Visibility into vulnerabilities to your Microsoft 365 cloud and on-premises environments to better understand, prioritize, and address vulnerabilities and misconfigurations across your organization.

- Long-term recommendations from our Microsoft experts about your security strategy, with key initiatives and tactical next steps.

- Modular approach, allowing you to select three out of four available modules aligned to your needs and requirements.

SELECTABLE Module	SELECTABLE Module	SELECTABLE Module	SELECTABLE Module
Unified SecOps Platform	Email Protection	Endpoint and Cloud Apps Protection	Microsoft Copilot for Security Demonstration

WHO SHOULD ATTEND

The engagement is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)

- IT Security Architects
- IT Security Administrators
- IT Security Operations (Sec Ops)

Why ISA Cybersecurity?

When it comes to security, you need an experienced partner.
Microsoft partnerships – no assembly required. Leveraging 70+ years of combined technical and deep industry rapport, we empower organizations to unlock the full potential of the Microsoft security suite of solutions.
