## POWER BI KICKSTART

**Description:**

Power BI Kickstart will give you great insight to Power BI product and its key capabilities. Service contains introduction workshop, where we will represent all the key features and use cases, plus comparison to other leading analytics products like Tableau and Qlik Sense. Service is not a sales meeting, we will go through all the pros/cons based on your unique situation and share experiences from other organizations.

**Benefits:**

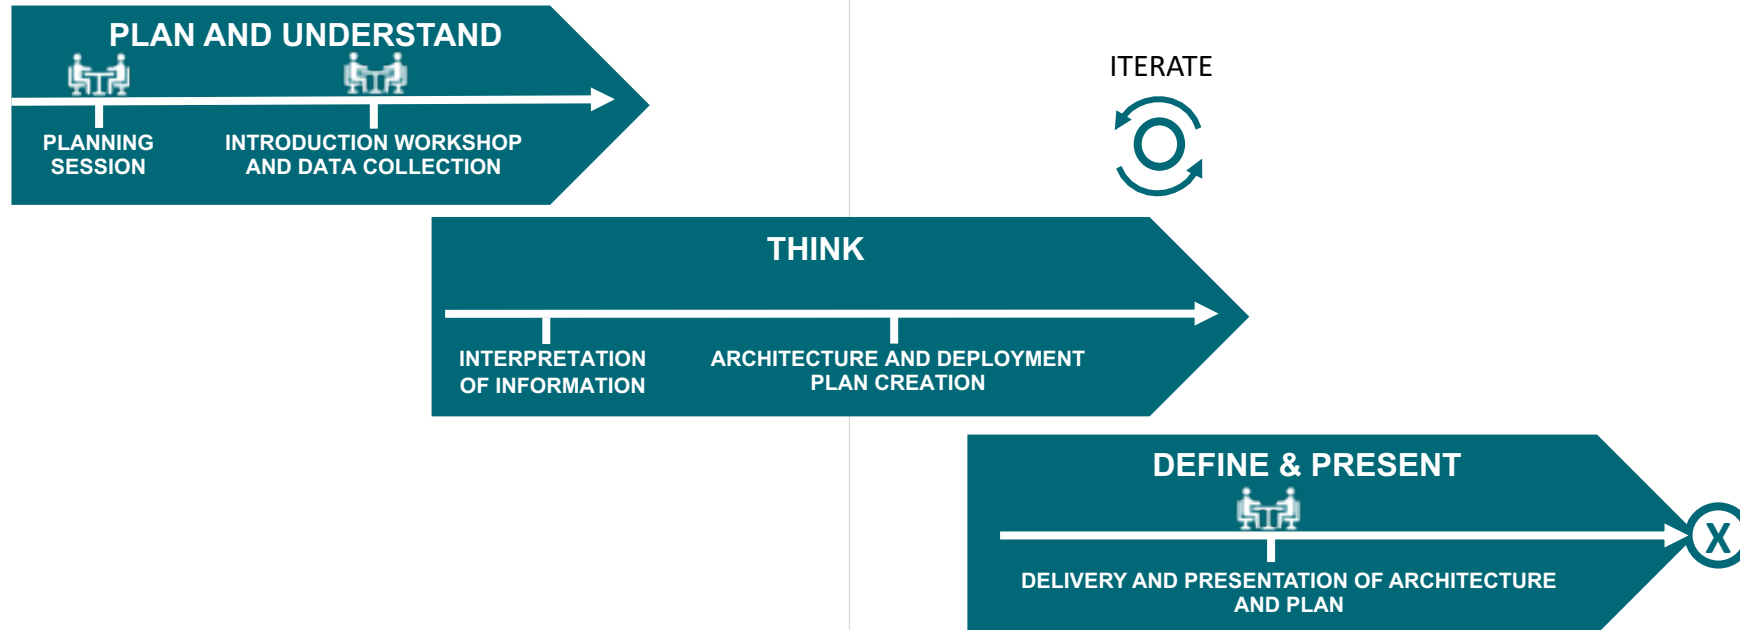

Your organisation will gain good understanding of possibilities and requirements to deploy Power BI to your organization. We will also deliver initial architecture and deployment plan specifically created to your situation.

**Duration:**

2 calendar weeks, without any customization

# APPROACH

2 CALENDAR WEEKS
