DATA PLATFORM KICKSTART

INTRODUCTION WORKSHOP + ARCHITECTURE/DEPLOYMENT PLAN

- **Introduction workshop** for **Azure Data Platform reference architectures**, **key components, best practices** and **use cases**.

- Based on the information collected we will prepare presentation of **proposed initial architecture and deployment plan**. Plan can involve migration, in case customer organization is already using other cloud solutions or on-premise solutions (like SQL Server). We will also introduce **Microsoft's Cloud Adaptation Framework for Data Management** during the workshop.

- **Benefits**: As end result customer has clear understanding on relevant Azure Data Platform architectural options, capabilities, pros/cons to their unique environment and initial architecture and deployment plan.

PACKAGED ASSESSMENT

2000 € fixed price (without customization)	**Assessment duration: 2 weeks** (without customization)
