

# INNOVATIVE PROJECTS

## About IT-Dev:

We provide modern solutions using Microsoft 365 technology. We enable our clients to successfully carry out digital transformations.

### See what customers are saying:

*We needed to create a unified, engaging experience for everyone. We were able to confidently choose and plan Microsoft 365 based Digital Workplace since we were shown its value to us.*

– Ardent Global

## WHAT WE OFFER

**Limitless Digital Workplace for Innovation** is a system enabling the transformation of ideas and knowledge possessed by employees into products, services or process improvements.

**Limitless Digital Workplace for Innovation** will enable clear communication and facilitate cooperation between employees as part of projects made of valuable ideas.

As part of the implementation of **Limitless Digital Workplace for Innovation**, we will discuss the process of creating and accepting initiatives and project management and we will adapt it to your needs!

**TURN IDEAS INTO INNOVATION!**

# Why Microsoft 365?

## Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

## Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

## Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

## Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

## Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

## Key use cases

### Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

### Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

### Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

### Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.
