

Keep your employees in the loop with all the latest company updates!

ABOUT IT-DEV:

We are a modern workplace SaaS solution company that removes barriers to innovation by creating a people-centered digital workplace experience. We have delivered more than 500 successful Digital Workplace projects internationally.

See what customers are saying:

For us, this Microsoft partner stands out with a methodical and comprehensive approach to digital workplace transformation. This helped us to immediately address any open security-related concerns and blockers with proven and right-sized policy automation. That gave us a peace of mind and allowed us to switch our focus on efforts to improve the user experience and their efficiency through a digital workplace that is engaging to all our business groups internationally.

– Dr. Schneider

WHAT WE OFFER

Limitless Digital Workplace News Portal elevates your internal communication to a higher level within a user-friendly environment! This solution integrates the key functionalities of Microsoft 365 communication tools like SharePoint, Teams and Viva.

The Limitless Digital Workplace News Portal supports:

- simplified content creation with dedicated article templates, ensuring ease of use for all users regardless of their level of SharePoint expertise,
- efficient portal building with built-in, predefined templates for corporate news and communication areas, enabling quick setup and customization,
- enhanced communication reach through push notifications, facilitating the distribution of important information directly to employees via Microsoft Teams and the mobile app,
- maintaining a single source of truth by actively involving employees in ensuring the timeliness and accuracy of information through error reporting and content recertification mechanisms.

Stay up-to-date with organizational news through Limitless Digital Workplace News Portal!

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
