iT1 Microsoft 365 Migration

Migrate your data seamlessly and help employees discover a new way to work

Accelerator highlights

Productivity and teamwork are fundamental to build resilience for your people, teams, and organization.

We focus on the technology, so you can focus on your business.

With this migration engagement, our goal is to get you migrated to Microsoft 365 seamlessly while giving your employees a world class experience.

We take care of all aspects of the migration for you from planning to execution to support

Map and align capabilities and features from your current environment to Microsoft 365
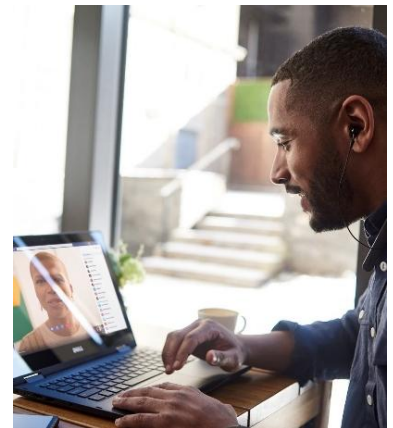

End-user communication, training, adoption and change management is built into the engagement

- Define scope, identify stakeholders, and gather information on current environment and workloads to be enabled or optimized. Design and prepare new environment.
- Enable Microsoft 365 workloads and schedule and perform data migration.
- Deliver lunch and learn training seminars to end-users and provide post migration white glove support to help end-users start adopting their new way of working.

Why Migrate to Microsoft 365?

- Cut licensing costs by 60% or more compared to a patchwork approach of dedicated solutions.
- Cut deployment, integration, management and related costs that come with a patchwork approach of dedicated solutions .
- Reduce wasted time and effort, investing in a solution designed for more seamless integration.

What to expect

The migration accelerator engagement is highly customized and scoped to meet your business and technical needs and requirements. Our migration engineers and change specialists will work with your business leaders, key stakeholders and employees to ensure a successful and seamless migration and adoption journey to Microsoft 365.

We will work with you to:

- Define scope and conditions of satisfaction
- Pre-migration questionnaire and interviews
- Discovery of current configuration
- Workshops for how you want to use Microsoft 365
- Configure Microsoft 365 workloads customized to your design and business needs.
- Divide users into migration groups and schedule migration groups

- Perform migration and monitor for optimization
- Schedule and deliver training seminars to your end-users on how to use Microsoft 365 workloads
- Schedule and send communications (physical and electronic) for post migration.
- Provide post migration support for end-users to help them use Microsoft 365 workloads

Our Approach

Assess & Design

Enable & Migrate

Adoption & Change Management
