

# About IT Authorities

---

IT Authorities is a Managed Service & Security Provider (MSP & MSSP) headquartered in Tampa, Florida.

---

We are a 7-time recipient of the INC 5000 Fastest Growing Companies in America and have been recognized over 10 times for Best Companies to Work For.

# We Dig Deeper

We are focused on truly being aligned with your business in order to create value. **WE DIG DEEPER.** Our services are built on the backbone of accountability, transparency, clarity, and above all else, business innovation. But what good is innovation or new things if you don't use them to their capacity or capabilities?

IT Authorities helps to ensure that you actually need and fully utilize the products and services you buy. We help you achieve more than just the move to Azure, setting up Intune, Sentinel, Advanced Threat Protection or other types of services. First, we help determine what you actually need, then focus on how to get the absolute most out of it.
