Our technology partners

AnyWare is your complete cloud office solution, enabling your team to seamlessly work together and securely access corporate files anytime and anywhere. With our fully integrated security system, data configuration, and infrastructure, we enable you to focus on your business.

A cloud office expert, AnyWare offers various services, including premium security, extensive IT support, cloud migration, hybrid workforce approach, and productivity tools.

Premium security

Securely access your corporate resources on any device, anywhere and anytime. Our security system is holistically designed with infrastructure system hardening, zero trust framework, and walled garden strategy.

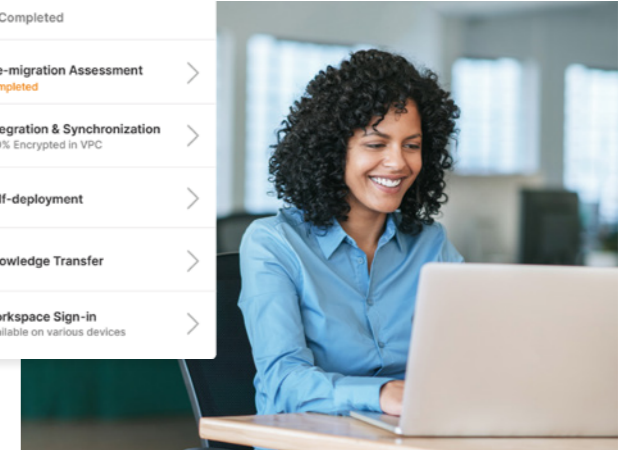

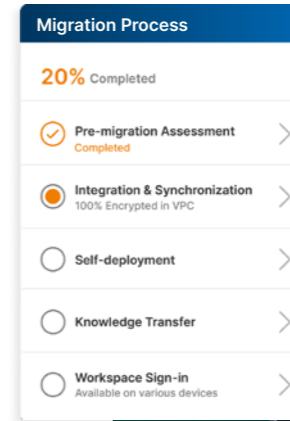

- ✔ Data loss prevention measures
- ✔ Microsegmentation
- ✔ Advanced encryption
- ✔ Multi-factor authentication

Cloud migration

Migrate with ease utilizing our rapid infrastructure deployment. We reduce the complexity of the migration process and smoothly transition your operations.

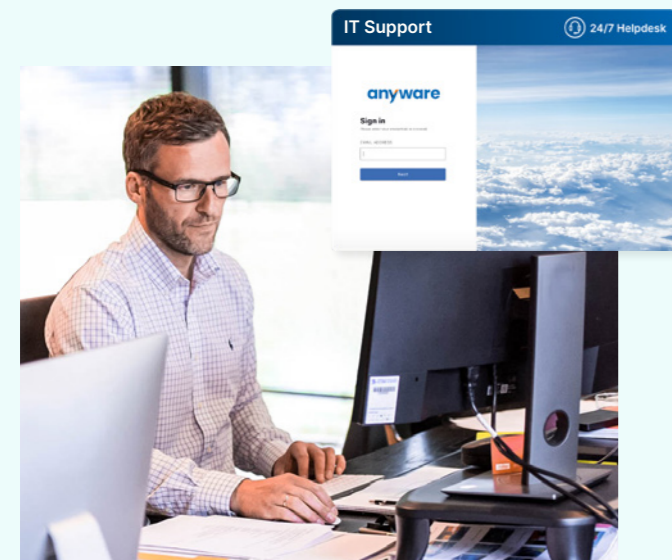

- ✔ Pre and post migration assessment
- ✔ Integration and synchronization
- ✔ Rapid deployment

Hybrid workforce approach

Optimize your productivity and collaborate efficiently with your team and third parties without geographic constraints.

- ✔ Virtual Desktop Infrastructure (VDI) implementation
- ✔ Secure remote work enablement

Extensive IT support

Leverage our remote support team to manage all cloud infrastructure components on your organization's cloud office environment.

- ✔ 24/7 virtual service desk
- ✔ User support portal
- ✔ Instant response
- ✔ Reduction of IT on-premises equipment

Productivity tools

Integrate seamlessly with our full suite of supported third-party cloud and collaborative applications.

- ✔ Microsoft 365 applications
- ✔ 2,000+ supported third party applications
