Discover the POWER of Your Data!™

a service of IT Impact, Inc.

What?
(we do)

We are business consultants that use computer technology to solve business problems, allowing our customers to "Discover the POWER of your data!"™

Gold
Microsoft Partner
■■ Microsoft

Why?
(we do it)

We feel immense satisfaction when customers acknowledge our efforts and express their deep gratitude. Our spirits get lifted upon knowing we've contributed to improving someone's quality of life but don't take our word for it; read our reviews here: https://accessexperts.com/reviews/

How?
(we do it)

Our consultants must first understand your business problem and, to a certain extent, your business model to design a solution that solves your problems, allowing you to leverage your investment to improve productivity, profits, and customer service as applicable.

Discover the POWER of Your Data!™
a service of IT Impact,Inc.

IT Impact, Inc. is a minority owned software company specializing in custom software solutions for all business industries. We offer service in Power BI, PowerApps, Microsoft Access, SQL Server, and .Net Programs, to serve your business needs. **Your business is unique, and your software should be too!**

- Get the best out of your data
- Do more with the same amount of people
- Improve efficiency
- Automation
- Save time and money
- Focuse on what's important: Customer service and growing the business

Our first rule:

Understand your business problem before we start coding. We follow this rule religiously to make sure we are successful with each project. We are business consultants first and developers second, allowing us to understand your issues and design a great solution that fits you like a glove.

Our firm is headed by Juan Soto, BSME with 30+ years in manufacturing expertise, a Microsoft Access MVP, and the founder of https://accessusergroups.org/ , a worldwide organization focused on helping others learn about Microsoft Access. We are looking forward to helping you "Discover the POWER of your data!"™ Let us know your needs:
