

Microsoft 365 Copilot Readiness and Adoption Package

► Microsoft 365 Copilot: Your Ultimate Productivity Assistant

Microsoft 365 Copilot is a paid, AI-powered tool that seamlessly integrates with popular Microsoft 365 applications like **Word, Teams, Outlook, PowerPoint, and Excel**. This tool leverages powerful **Large Language Models (LLMs)**, connected with data from **Microsoft Graph** and Microsoft 365 applications. The primary goal of Microsoft Copilot is to help users work more creatively and productively by automating tasks and assisting them in developing better personal skills.
