

YOUR CLOUD SOLUTION PROVIDER

TENANT OPTIMIZER TOOL

ACHIEVE MORE WITH MICROSOFT SOLUTIONS

WHAT DO WE OFFER?

Welcome to IT Partner Tenant Optimizer! We offer a powerful tool that makes managing, controlling, and optimizing your resources a breeze. With our data-driven analysis, you'll receive a comprehensive report that evaluates user activity, product usage, relevance of purchased products, and potential for digital transformation. We're here to help you get the best possible results from your tenant!

HOW DO WE ANALYZE YOUR TENANT?

So, how do we analyze your tenant? By using native approaches based on cost-effectiveness, expediency, and Microsoft recommendations. Our analytics engine has over 30 different rules that identify negative scenarios and help us pinpoint opportunities for growth.

Data collection for analysis is always carried out in read mode, ensuring your data is safe and preventing any leakage. We understand how important your data is to your business, which is why we take every possible precaution to keep it secure.

WHAT ARE YOU GETTING?

When you work with us, you get an email report that's divided into four blocks:

 Tenant Information
(general information and tenant statistics block)

 Security Recommendations
(security block)

 Licensing Recommendations
(optimization block)

 Digital Transformation Recommendations
(digital transformation block)

IT Partner [GO TO SITE →](#)

We value the trust of our customers and strive to make their use of Microsoft products as efficient as possible. In this regard, we have prepared an analytical report on the state of your Tenant. Please take a look.

Tenant Information [ADMIN INFORMATION →](#)

Tenant Owner Name:	Tenant Owner Address:
Default Domain Name:	Tenant Registration Date:
Tenant ID:	Technical Contact: The system could not determine the technical contact email of the tenant. Please double-check that the value in your tenant 'Org settings' is correct.

Licenses purchased: 15	VIEW DETAILS →	Users total: 112	VIEW DETAILS →
Guest Users total: 92	VIEW DETAILS →	Non-User Mailboxes total: 24	VIEW DETAILS →

Secure score: 48.39%

Security Recommendations [→](#)

Security Defaults Status The System checks if your Security Defaults Status is active

Analysis Result: Your current Security Defaults Status is 'inactive'

Recommendations: To prevent fraudulent activities and protect your tenant, we recommend enabling [the service](#). To learn more about Microsoft Security Defaults, [contact us](#). Implementing will prevent growth of unexpected costs and tenant data leakage.

Licensing Recommendations [→](#)

Blocked Users The System checks if there are any users who have been blocked for 90+ days

Analysis Result: You have 3 Sign-in blocked user(s) for more than 90 days with licenses assigned, which you are still paying for.

Recommendations: Please check your user statuses. Possible solutions:
- if the status of a user from the list won't change in the near future, we recommend cancelling the assigned license(s) and/or reassigning them to other users;
- if the status of the user is not relevant, we recommend updating it.

[VIEW THE REPORT →](#)

WHAT ARE YOU GETTING?

In turn, the recommendation blocks contain rule plates for identifying negative scenarios, which are divided into 4 sections and include:

-  Rule title
-  Brief rule description
-  Licensing Recommendations (optimization block)
-  Digital Transformation Recommendations (digital transformation block)

Blocked Users

The System checks if there are any users who have been blocked for 90+ days

Analysis Result:

You have 3 Sign-in blocked user(s) for more than 90 days with licenses assigned, which you are still paying for.

[VIEW THE REPORT →](#)

Recommendations:

Please check your user statuses.

Possible solutions:

- if the status of a user from the list won't change in the near future, we recommend cancelling the assigned license(s) and/or reassigning them to other users;
- if the status of the user is not relevant, we recommend updating it.

WHAT ARE YOU GETTING?

Each block contains valuable recommendations for identifying negative scenarios, all with links to relevant reports that will help you understand the source of any problems. You'll also have a global report at your disposal, making navigation of your tenant simple and convenient.
