Adoption and Change Management with Digital Okta

A guide to getting started with your ACM Assessment

Introducing the Adoption and Change Management (ACM)

This kit is designed to arm you with knowledge and resources to supplement your WVD services with Digital Okta capabilities. In this info kit, we will provide an overview of our expertise and tools and would welcome an opportunity to help fill any gaps.

What is the Digital Okta Adoption and Change Methodology?

- ▶ DO provides ACM Solutions for Security and regulation applications like financial services, healthcare, and government..
- ▶ DO enables Elastic workforce needs like remote work, mergers and acquisition, short-term employees, contractors, and partner access.
- ▶ DO has a specialized bench with deep Cloud and Teams Deployment to work hand-in-hand with partners to fill gaps.

Why Sell Digital Okta ACM Services?

Champions

▶ Learn how to create a program that harnesses the motivation of Champions as your organization deals with a shift to remote work culture. Leave with a specific plan and understand Microsoft resources to accelerate your results.

Modern Architecture

▶ Learn 'which tool when' supported by the Modern Collaboration Architecture (MOCA), enabling improved collaboration, communication, and information management by individuals, teams, communities, and across the Microsoft 365 suite.

Remote Productivity

▶ Today, more than ever, we need to collaborate and co-innovate to meet those customers' needs. Come hear from our customers and partners on how they transitioned their organizations to remote work both technologically and culturally.

Skype to Teams

▶ Microsoft Teams can help your employees stay connected and collaborate with each other, especially in the current unprecedented time where remote work is a reality of employees around the world.

Microsoft 365 as a Business Enabler

Microsoft 365
A complete, intelligent, secure solution to empower employees

Unlock Creativity
- Create compelling content with intelligent apps
- Work naturally with ink, voice and touch
- Visualize information in new ways
- Connect the experience across devices

Built for teamwork
- Email and calendar with Exchange
- Connect to people, content and apps with SharePoint
- Voice, video and chat with Microsoft Teams
- Network across the organization with Yammer
- Co-author with Microsoft 365 Apps for Enterprise

Integrated for simplicity
- Minimise TCO across deployment, management and servicing
- Broad support for PC, Mac, iOS and Android platforms
- Comprehensive management of your entire workforce
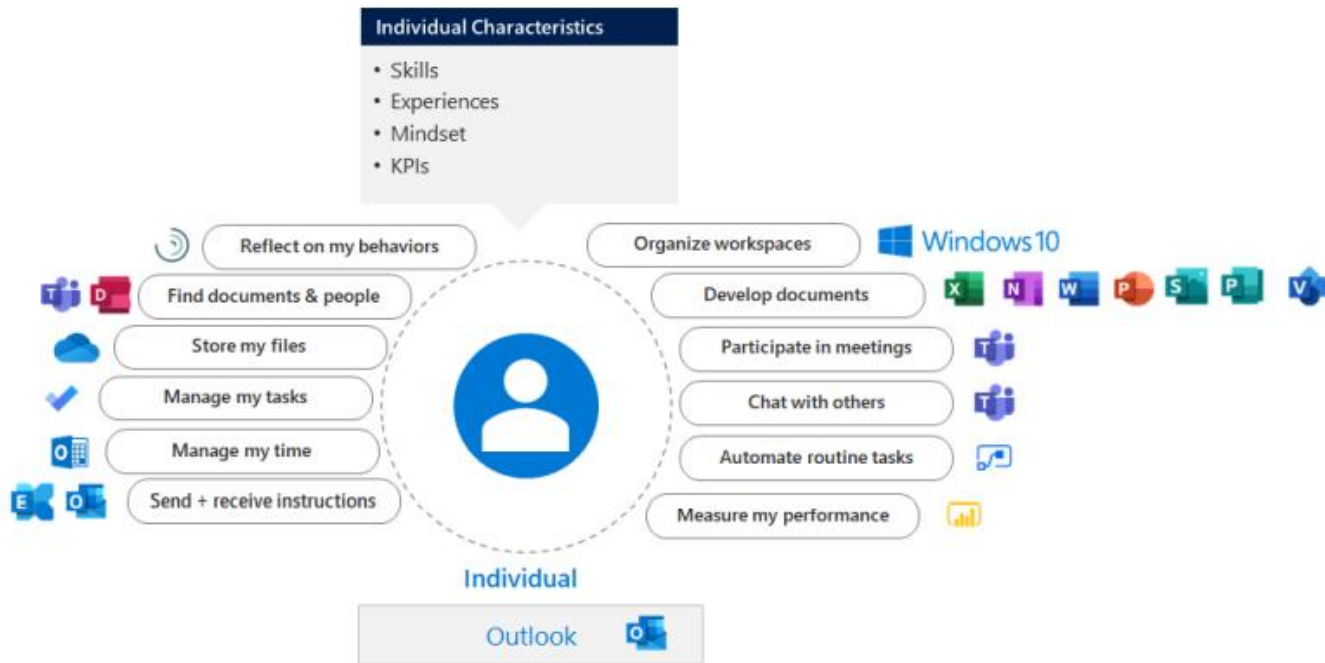

Intelligent security
- Identity and access management
- Information protection
- Threat protection
- Security management
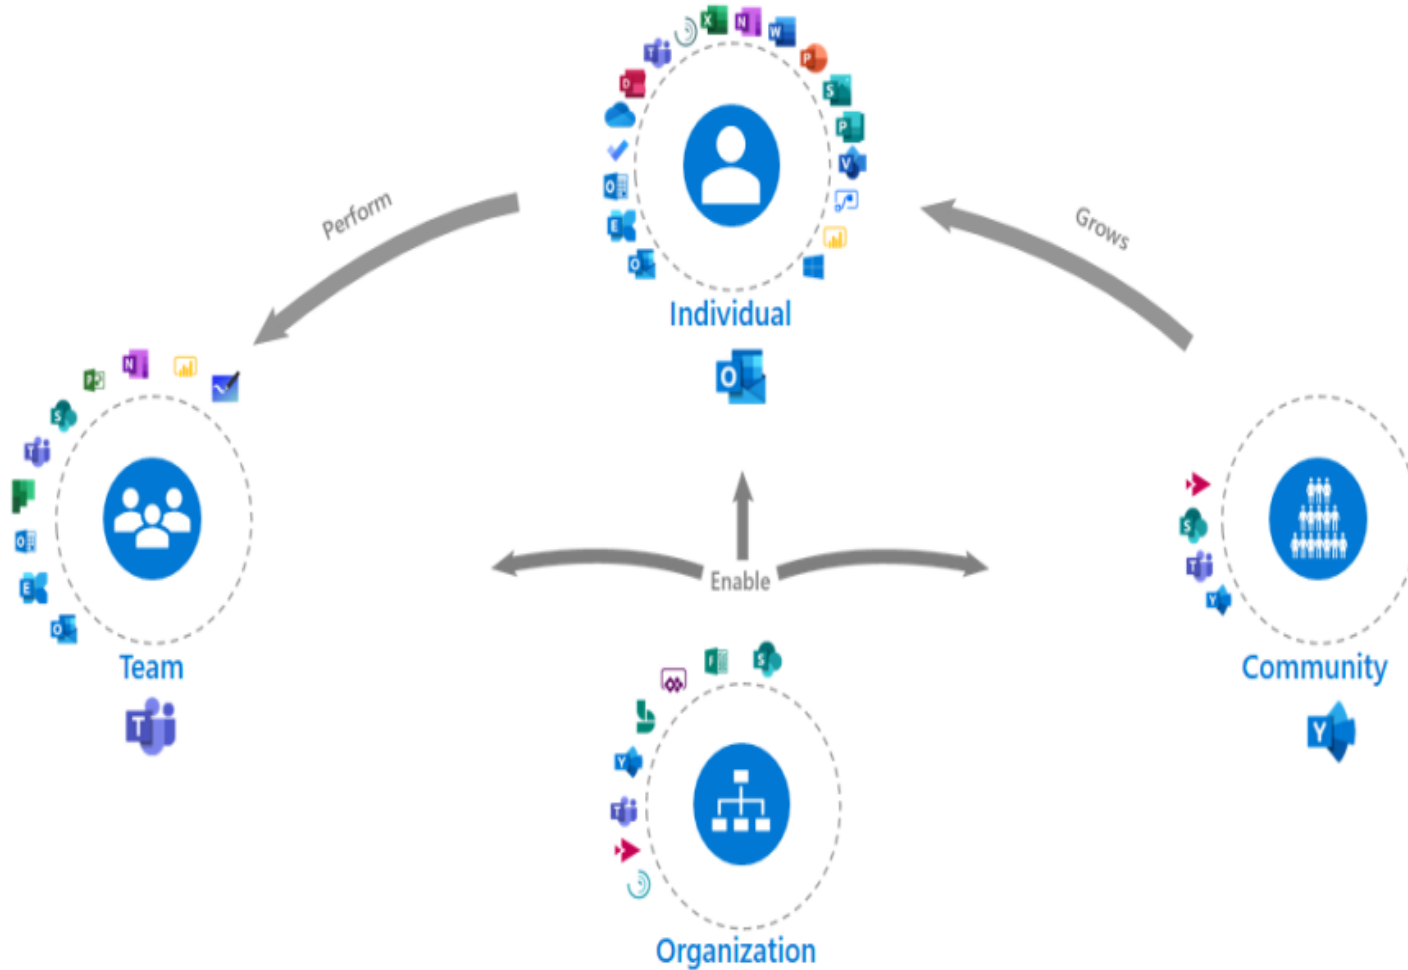

The Modern Collaboration Architecture (MOCA) aims to describe four key areas of productivity:
• Individual productivity
• Team productivity
• Community enablement
• Organisational productivity

For an organization to be successful in their Modern Workplace journey, they need to address all the four areas given the tight interdependency between each. This architecture forms the corner-stone for successfully implementing productivity focused change programs. It highlights which Microsoft 365 capability enables which organizational focus and the importance of setting the right drivers, behaviours, by understanding some of the characteristics of each of the key areas.

Individual Characteristics
- Skills
- Experiences
- Mindset
- KPIs

Reflect on my behaviors

Find documents & people

Store my files

Manage my tasks

Manage my time

Send + receive instructions

Organize workspaces — Windows 10

Develop documents

Participate in meetings

Chat with others

Automate routine tasks

Measure my performance

Individual

Outlook

Individual: A single person as distinguished from a group.

Organizations hire individuals for their skills, experience and excellence in what they do - and a mindset that is a good fit for the team. The Microsoft 365 suite is designed to better focus on applying and organizing their specific skills and experiences.

Key

Calendar	Delve	Excel	Exchange
