

## ITVT PowerApp in a day

## ITVT PowerApp in a day - 1 day workshop

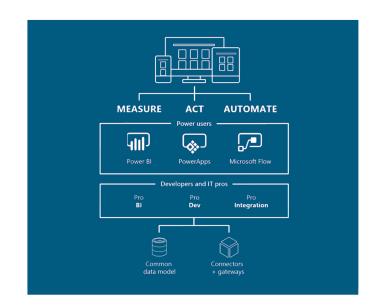

Meet our PowerPlatform experts and the PowerPlatform for a day and get your lowcode / nocode initiative up and running in no time

This 1-day workshop is specifically designed to help business and IT analysts understand the value of PowerApps and how to implement it within your business processes.

In this remote offer our expert will convey the basics of Microsoft PowerApps and Flow with specific use cases and lab exercises. We will guide you through the first steps of implementing PowerApps within your environment, enabeling your participants to build a sample application using PowerApps and Microsoft Flow.

## Agenda

- Introduction to PowerApps/ PowerApps lab
- Introduction to Microsoft Flow/ Microsoft Flow lab
- Introduction to Dataverse

## Goal

- Creating custom business applications without writing code
- Learn how to build business processes and complex data relationships within your applications
- Learn how to connect your app to a variety of data sources to bring it to life
- Share your apps inside your organization securely
