Active Directory Services: Implementation, Upgrade, and Migration

Introduction

In the digital age, a secure and efficient IT infrastructure is the backbone of every organization. At ITX360, we specialize in delivering cutting-edge Active Directory (AD) services tailored to meet your unique business needs. Whether you are implementing AD for the first time, upgrading your existing system, or migrating to a new environment, our team ensures a seamless experience with minimal risk and maximum results.

Our Service Offerings

Active Directory New Implementation Package

Establish a robust foundation with our Active Directory implementation services tailored for your business needs. We focus on creating secure, scalable, and highly available environments that support your operations and growth. Trust our experts to design and deploy a system that integrates seamlessly with your business processes, backed by our commitment to excellence and best practices in IT security.

Active Directory Upgrade Package

Upgrade your Active Directory system with confidence. Our service enhances your setup with the latest features and security updates, ensuring your infrastructure meets modern performance and compliance standards. We provide a trustworthy and smooth upgrade process that minimizes downtime, maximizes efficiency, and secures your operations against emerging threats.

Active Directory Migration Package

Migrate with minimal risk and no disruptions. Our proven migration strategies are designed to protect your data integrity and ensure continuity of services. We handle all aspects of your Active Directory migration, from thorough pre-migration assessments to post-migration support, ensuring a transition so smooth that your day-to-day operations are unaffected.

Our Process

We follow a structured, client-focused methodology to ensure the success of every project:

1. **Plan:** Conduct a comprehensive assessment of your organization's needs.

2. **Develop:** Tailor strategic approaches to align with your business objectives.

3. **Envision:** Provide detailed roadmaps for clear project visualization.

4. **Implement:** Execute with precision, ensuring minimal downtime and disruptions.

5. **Support:** Offer ongoing optimization and technical support to future-proof your environment.

Why Choose Us?

Reliability and Expertise

Our team consists of over 25 highly trained technical professionals with over a decade of experience across various industry verticals. As a trusted Microsoft Solution Partner, we deliver solutions you can count on.

Tailored Solutions

We do not just implement; we align our services with your business needs to provide customized solutions that enhance both security and functionality.

Long-Term Partnership

Beyond implementation, we offer ongoing support and optimization services to ensure your Active Directory environment evolves with your business.

Certifications and Achievements

Leverage our industry-recognized certifications and extensive experience with blue-chip companies to gain peace of mind. Our credentials include:

*   **Infrastructure and Security:** Microsoft Certified: Azure Administrator Associate, Cybersecurity Architect Expert

*   **Digital and App Innovation:** Microsoft Certified: DevOps Engineer Expert, Azure Solutions Architect Expert

*   **Data and AI:** Microsoft Certified: Azure AI Engineer Associate, Azure Data Engineer Associate

We have achieved Solution Partner Designations for Modern Work and Security, highlighting our commitment to upholding the highest standards of service delivery.

Client Success Stories

Our expertise is demonstrated through our successful project completions for various industries. From complex migrations to implementing robust security measures, we've consistently exceeded client expectations. Our approach ensures:

- Minimal downtime during upgrades and migrations.

- Improved system performance and scalability.

- Enhanced security to safeguard against emerging threats.

Pricing Plan

New AD Implementation $ (USD)	AD Upgrade $ (USD)	AD Migration $ (USD)
4000	5000	6500
