# Sentinel Cloud SIEM QuickStart

Our Approach

ivision's QuickStart security offering for Microsoft Sentinel enhances cybersecurity readiness through advanced threat detection, incident response, centralized security operations, customization, scalability, integration, and compliance support. This solution bolsters security posture, safeguards critical assets, and maintains stakeholder trust in a dynamic threat landscape.

Transform

Architect

Operate
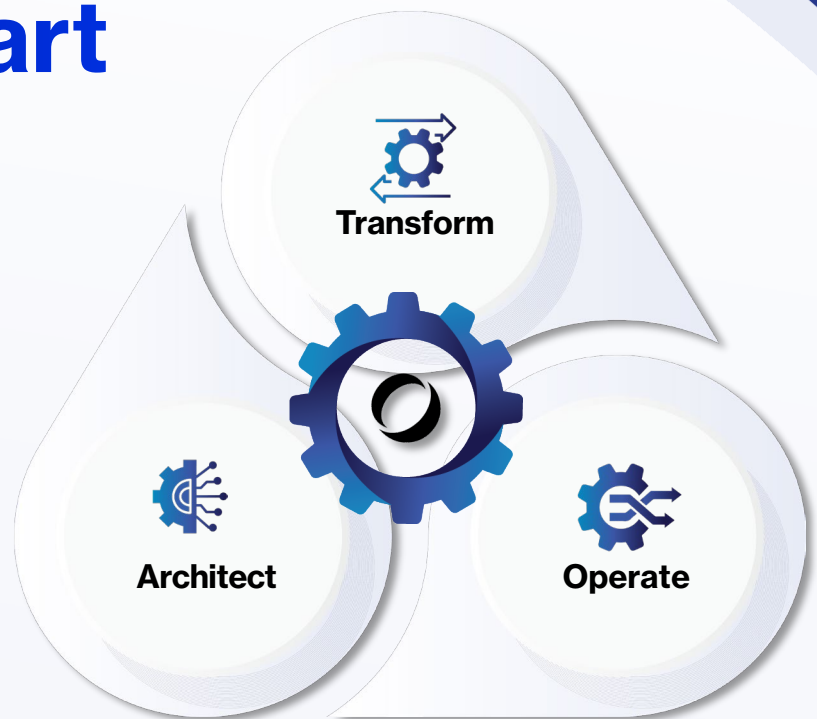

Common Challenges

- Lack of a comprehensive security event management and response framework

- Lack of cohesive capability for collection of event data, and significant alert fatigue from multiple security tools

- Lack of AI and Analytics capabilities to investigate and respond to real threats and not chasing all the noise

- Significant Improvement to threat response needed in real-time with focused intelligence and robust investigative tools built for scale.

Benefits

✓ Enhanced and Integrated Security tools and protection policies for assets and platforms built on MSFT Cloud

✓ Improved ROI, maximizing your MSFT investment and integrated with XDR

✓ Increase business productivity by reducing downtime, and impact to

✓ Cost-effective solutions for retention of event management resources, and powerful AI capabilities to greatly expand defense for future threats

What's Included

- Design Roadmap and baseline implementation of MSFT Sentinel
- Configured Native M365 and Azure tenant data connectors
- Configured integration connectors for local Active Directory, syslog for on-premises services & standard Firewall
- QuickStart Sentinel Workbooks and Alerts, & retention policies

Service Options

- Sentinel SOAR Advanced Capabilities, automation workbooks, analytics rules and alert enrichment
- Integration with M365 Security Copilot for Security
- Integration and implementation of MSFT XDR with Defender Threat Intelligence
- Future Security Operations integration with SOC services.
- Integration with Service Now or other incident response platform or ticketing system.

Why ivision?

People

We promote productivity and collaboration through proactive management, clear expectations and technical expertise.

Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
