

# ABA Analytics Scorecard

Boost your ABA(Applied Behavior Analysis) Therapy Success – Use our Scorecard to track your major KPIs!

## Dashboards, Scorecard and KPIs

### Dashboard:

- Broad and detailed view
- Real-time monitoring
- Good for exploration and understanding trends

### Scorecard:

- Concise summary of key goals
- Tracks progress against targets
- Good for identifying issues and making quick decisions

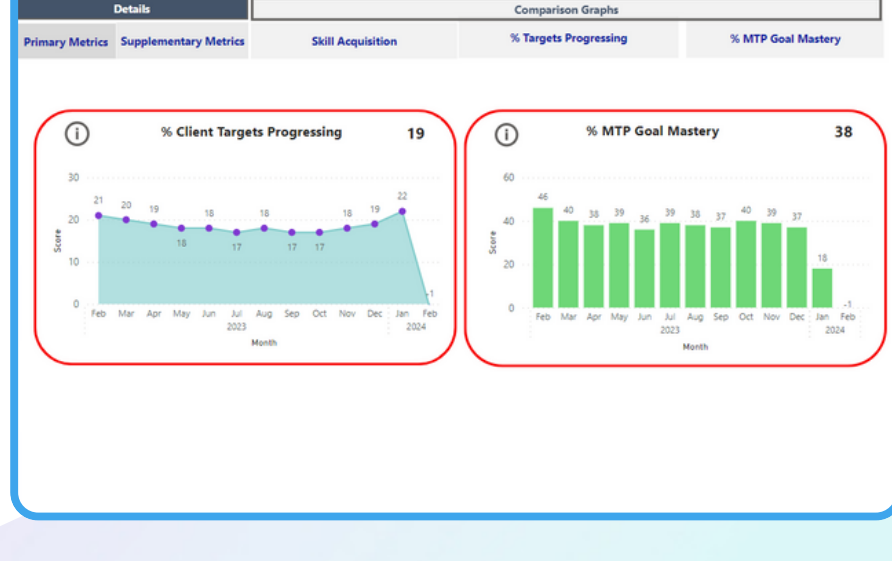

### Focus on what matters- KPIs that guide your ABA Practice

Track key areas across the following dimensions:

- **Operations:** Smooth processes, high efficiency (e.g. client retention rate, technician retention rate), Utilization
- **Clinical:** Client progress, therapy effectiveness (e.g. skill acquisition, behavior reduction)

## Deep Dive into Client Progress with Scorecard

- **KPI Scores:** Weighted for importance, rolled into a single view
- **Key Metrics:**
  - Client Target Progressing
  - MTP (Monthly Treatment Plan) Goal Mastery
  - Client Progress: Behavior Reduction and Learning
  - Authorized Treatment hours by Month
  - Client Count by Month
  - Therapy Hours provided
  - SC (Supervising Clinician) Hours provided
  - % Treatment Utilization
  - % Family Engagement Utilization
- **Target Progress:** Visualize progress towards client goals
- **Score Trend:** See improvement over time
- **Performance Indicators:** Identify areas exceeding/need attention (below, meeting, approaching standard)

## Optimizing ABA Outcomes

Leveraging Predictive and Benchmark KPIs within our Scorecards cultivates a growth-oriented mindset and empowers ABA Therapy Providers by -

- Improving patient outcomes
- Customer Retention
