

# 10 reasons for choosing CheckedID

Truly easy

1

## Offers maximum certainty

Makes sure it's real ID document, not a copy. Reads the ID document chip and verifies the holder.

2

## Processes all formal ID documents

Passports, ID cards and residence permits processed of all countries. Driving licences from many countries.

3

## Best user experience

Easy to use app, tap-and-go user flow, automatic document detection, delivers a correct result in < 15 sec

4

## Out-of-the-box solution

Ready to use, no IT development required, fast to deploy.

5

## Supports customer specific scenarios

Verification process can be executed by employee, partner/extended employee or candidate/customer

6

## Supports data minimization

Provides only those personal data attributes that may processed in the verification context (e.g. personal number, photo of holder)

7

## Fully GDPR compliant

Identity verification process is a closed process, no data can leak, CheckedID app is bank grade, datacenters in EER

8

## Easy integration into customer processes

API's available for invoking ID verification invitation from a customer process and deliver outcome and data in specified location

9

## Customer branding

CheckedID app can be branded with customer corporate identity

10

## Proven technology

Based on well established and trusted technology that is used by banks, police, etc.
