

MICROSOFT CLOUD HOME OFFICE WITH CLOUD ACCELERATOR

Equip your employees with the right tools to continue working remotely and securely, regardless of their location. In conjunction with Riverbed's Cloud Accelerator, you can also enhance your cloud-hosted applications in order to enhance performance.

Benefits of Jasco Consulting's Microsoft Cloud Home Office Solution:

-  **Rapid Set Up + Scale:** Jasco can rapidly virtualise and deploy desktop apps to the cloud in minutes.
-  **Complete Modern Workplace Capability:** Microsoft 365 and Microsoft Teams are the ultimate platforms for teamwork, ensuring you get the full office experience from anywhere.
-  **Corporate Standards at Home:** Using your current device, Jasco's remote workplace solution allows your organisation to get going instantly, without the need for new or extra devices.
-  **Multi-Factor Authentication:** MFA helps protect your business with secure monitoring and reports.
-  **Business Utilisation Reporting:** Jasco allows you to keep track of employee login activity to ensure consistent work productivity, regardless of their location.

Benefits of Riverbed's Cloud Accelerator

-  **Faster App Performance:** Improve performance by up to 33x with up to 99% bandwidth reduction.
-  **With Ease:** Always-on global acceleration service built on the Azure cloud with 'one-click' provisioning from the Riverbed SD-WAN management console.

Build From Scratch

Incorporate Microsoft Office 365 complete with Microsoft Teams within your office environment and build a Windows Virtual Desktop solution.

Virtual Desktop

- Build a Windows Virtual Desktop environment
