# Cloud Transformation: Transform at scale and without hassle

NIIT Technologies Ltd.'s Cloud Transformation Service helps in initiating the transformation journey by containerizing an old and legacy application and transforming them into a cloud based modern architecture.

## CHALLENGES

- Less clarity on where to start and what to offer
- Management of application becomes difficult
- Billing, chargeback, reporting & visualization makes it complex
- Evolving use cases

## IDEAL SOLUTION

- DevOps culture
- Containers for application packaging & Kubernetes for orchestration
- Prometheus & FluentD for monitoring & logging
- IAM & secrets management

## DESIRED OUTCOMES

- DevOps culture, team & pipelines
- Modern application - micro services enabled
- Native observability
- Built-in security

# NIIT Technologies Ltd.

## Cloud Transformation Services

Cloud Transformation is safeguarding customers from the fear of missing the next big thing for their organization. A speedy, effective and efficient cloud transformation process becomes the need of the hour for an organization willing to overcome the industry challenges.

### MAINTENANCE TO INNOVATION

Shift IT from legacy apps and systems to an innovation driven work culture

### RISK AVERSE

Stay away from the callous operational risk by shifting applications to a simpler, predictable environment

### EXTEND VALUE OF APP

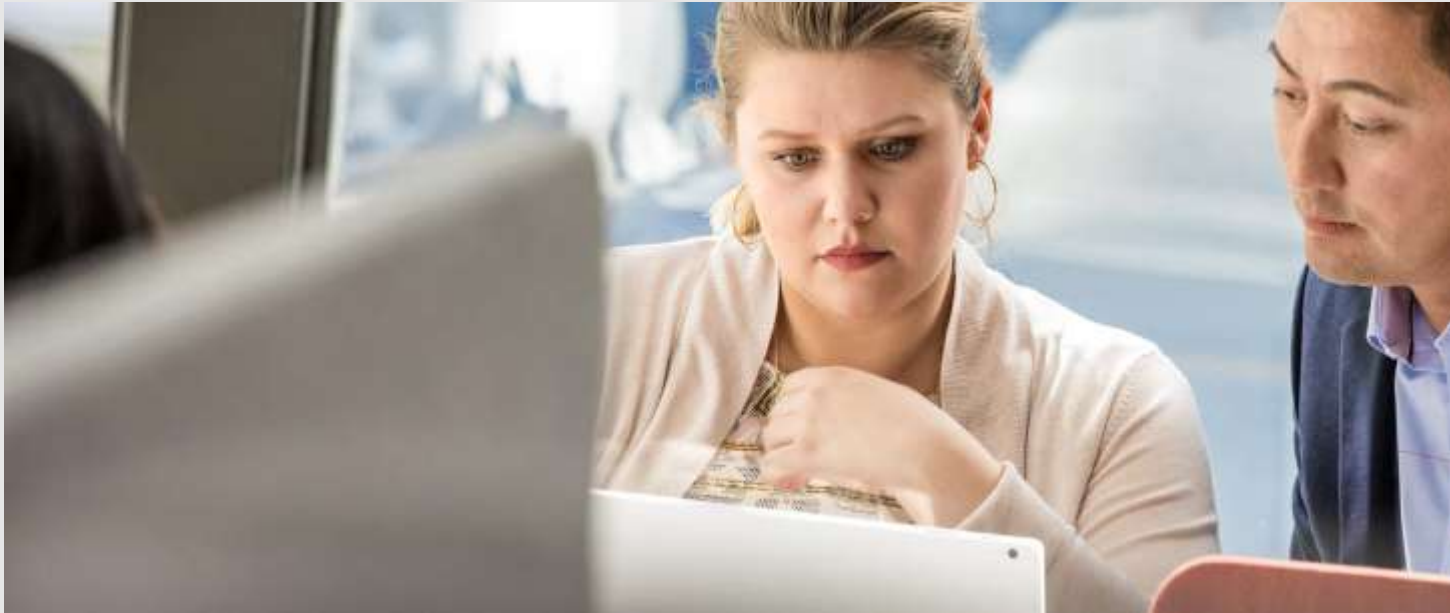

Migrate applications at lightning speed and enhance business opportunities that extends application life

### AGILE IT

Transform to agile IT by changing from complex build and deploy cycles into agile CI/CD pipelines

# NIIT Technologies Ltd. partners Microsoft Azure for Cloud Transformation Services

NIIT Technologies Ltd. leverages Microsoft Azure capabilities to help clients envision and reimagine the new cloud paradigm. The 360 degree Cloud Partnership makes Azure the strategic partners for NIIT-Tech and provides pre-sales support, help in creating go to market strategies and accelerates the end to end process by allowing access to the tools required for working on cloud.

## **AZURE VDI AND OFFICE 365 BUNDLE**

NIIT-Tech leverages Azure VDI for fast-track and risk free VDI migrations and transformations. The benefits of VDI solutions to organizations include centralized desktop management, improved security, and reduced IT overhead.

## **DATA CENTER TRANSFORMATIONS**

Apart from VDI transformations, NIIT-Tech performs data center transformations and also provides modern workplace solutions using office 365 and SharePoint

# Customer Success: Charity Group partners with NIIT Technologies Ltd. for implementing Azure VDI

Charities common services is a shared IT service that is being utilized by three national charities based out of UK and they wanted to get rid of aging infrastructure. NIIT-Tech completed the task in record time and delivered excellent results to client, which resulted in timely exit from data center and saved the cost of running on premise stack.

## AZURE VDI

- Migrated Virtual Desktop Instance (VDI) environment to Cloud
- Migrated users to new VDI environment on cloud

## GET RID OF EXISTING INFRASTRUCTURE

- The clients got rid of aging and end-of-life infrastructure
- The clients exited the data center completely and moving entire setup to cloud

## CAPEX TO OPEX

- There was a shift in financial model from the Capex to the Opex
- The existing licenses were consumed in the cloud. In addition, no new tools were purchased for cloud operations
