

## Power Pack for Microsoft Universal Print

- ▶ Cloud Print easily from Windows, Mac, Windows 365, Azure Virtual Desktop, iOS, Android
- ▶ Remove all printer-related servers, access all printers and print jobs through the Cloud
- ▶ Adds advanced features such as fast deployment, card reader and AI-DLP to Universal Print
- ▶ Directly integrated with Entra ID, Universal Print, it is a SaaS on Azure PaaS

Celiveo365 provides cyber-secure print management as an easy-to-use plug-in for Microsoft 365. Unlike most other solutions it is a pure elastic, high-security Microsoft Azure native Cloud app, **adding pull print, MFP access control, print rules and granular tracking to Universal Print.**

### Celiveo 365 direct benefits for your print management and users

#### Lower Cost

- Ease printing for end-users
- Celiveo 365 is a true SaaS solution, no server/gateway/VM to keep and maintain with smart printers\*, IoT service for others
- Supports most network printers from any brand, IPP2.0/PDF
- Flexible charging model, the cost is predictable, adjustable
- The subscription scope can adjust to your needs, it is as simple as Microsoft 365

\*: list of supported smart printers on celiveo.com

#### True SaaS on PaaS

- A Genuine SaaS solution with top reliability and accessibility
- Celiveo 365 is extending Microsoft Cloud printing features
- Smart printers interact directly with Celiveo 365 in Azure, no server/gateway, no agent on PC
- Celiveo 365 protects your data and is available in your region
- Celiveo 365 is not a software in a VM in the Cloud, it is a native elastic Azure App, not using any operating system

#### High Security

- AI-DLP, detect and stop PII and PHI data leaks in print jobs
- No VPN, no login/password
- Built on a Zero-Trust-Access architecture with ECC-P256 certs
- Any communication is considered hostile unless proven otherwise
- Endpoints, nodes protection by certificate chains forest
- Mutual TLS authentication
- Double PKI encryption
- 24x7 Cloud Defender CSPM
- ISO 27001:2022, ISO 9001:2015
